

As we discussed on the floor, the House Corrections & Institutions Committee passed with an 11-0 committee vote that we agree with adjustments to B338. The \$1M for the Justice Offender Management System and Electronic Health System modifications. We also agreed with the additional charges from the Agency of Digital Services to DOC.

We also passed on a 11-0 committee vote, to shore up the shortfall of \$3.1M to take care of the deficit of the DOC Correctional Industries Fund. The agreement to fund and cover the shortfall with DOC, was based on the inclusion of recommended language which is attached. This was also passed on a 11-0 committee vote.

Many thanks,
Rep. Winter
Rep. Sweeney
