Hi. My name is Juliane Foley. I live in Georgia VT with my disabled and wonderful 21 year old son Owen, and his father.

Owen needs to build independence (from mom and dad) skills now so that he is ready and ok when mom and dad can't support him like we are now.

We need more choice for supportive and stable housing so that we can set him up for success and avoid crisis when he is older.

The supportive and stable housing choices will also allow our family to heal and begin to be able to do things together as a family again. Currently my husband or I need to be home with my son which means that for many years now we have not been able to leave this house together. . . . even to attend my daughter's graduation, a wedding, a funeral etc.

We appreciate your help. Projects like this are needed now to support the many wonderful and yet vulnerable adults like my son in VT.

Best Regards,
Juliane
