# Business Operations

The **Office of Workforce Strategy and Development** (OWSD) oversees the collaboration of workforce efforts across the state (both State and private) and advises the Governor on strategies to strengthen Vermont’s workforce.

The Office includes the State Workforce Development Board with its 27 members. They advise the Governor, Commissioner and Labor, and Executive Director of the Office on the implementation of a workforce education and training system, as required under federal law (WIOA).

In addition, the OWSD works closely with the One-Stop Operator at the American Job Center (AJC) located in Burlington. A One-Stop Operator is responsible for coordinating service delivery at the AJC, ensuring that services from various partner programs (e.g., training, career services, employment support) are streamlined for job seekers and employers. The Operator’s role includes managing daily operations of the AJC, overseeing partner services, and sometimes providing direct services themselves. They play a key role in the implementation of federal workforce programs at the local level under the Workforce Innovation and Opportunity Act (WIOA) and collaborate closely with the Workforce Development Board. The Operator is fully federally funded.

This chart is specific to the Department's request to the Legislature for **Spending Authority** to spend the identified amounts in the identified programs. Included in this chart are both existing funds and requested funds.

**FY26 Budget Federal Funds** column indicates funds that are projected to be appropriated to the Department by the federal government. For these funds, the Department is seeking *spending authority* of already appropriated or anticipated funds, not an appropriation.

**Change column** highlights indicate changes to general fund dollars only.

# FY26 Spending Authority Overview

## ❖ Federal Considerations

- The greatest challenge is the uncertainty of federal funding.
- The federal government determines funding levels before the notice of award, without input from the Department.
- The Department must manage operations based on the awarded funding level.
- Level federal funding, coupled with inflation and rising business costs have meant a reduction in funds for Department
- Rarely are there opportunities to request increases to base funding from the U.S. Department of Labor or other federal entities.
- The federal fiscal year runs from October 1st to September 30th.

## ❖ Modernization Projects

- The Department is undergoing four modernization projects to improve service delivery to Vermonters.
  - Unemployment Insurance system
  - Workers Compensation Case Management system
  - Vermont Job Link
  - FARS (Financial Accounting)

## ❖ Staffing Constraints

- The vacancy rate is about 15%, leading to resource allocation toward core programs and essential services.
- Hiring efforts are ongoing, but the tight labor market has made it challenging to find qualified candidates.

### **Workers' Compensation**

- This project will modernize the current case management system for the Workers' Compensation & Safety Division.

### **Unemployment Insurance**

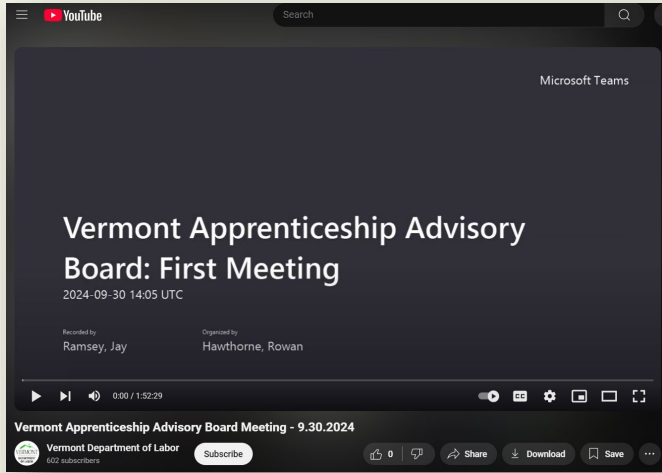

- This project will completely replace the unemployment insurance system for the Department, including Tax, Benefits, and Appeals.

### **Workforce Development**

- This project will replace the State's current job board, case management, and federal reporting system, currently known as Vermont Job Link (VJL).

### **FARS (Financial Accounting)**

- The Department is currently working with the Agency of Administration as part of the overall modernization of the State's financial accounting systems.
