RPC Statement of Work Funding Reserved					
Regional Commission	Town	VCI	Funding	Submitted	Project Description
WRC	Athens	94.70%	43,495	3/12/2024	An architectural and engineering scoping project focused on the former Athens elementary school. The Town's goal is to renovate the building into a multi-purpose community center to serve as a hub for community events, an emergency shelter, and a relocated town office with a dry, secure vault for record storage.
WRC	Athens	94.70%	9,250	3/12/2024	The town has requested funds to complete an architectural and engineering scoping project focused on the former Athens elementary school. The town's goal is to renovate the building into a multi-purpose community center to serve as a hub for community events, an emergency shelter, and a relocated town office with a dry, secure vault for record storage.
NVDA	Barnet	55.80%	52,000	4/15/2024	The town is seeking MTAP funding on behalf of the McIndoe Falls Academy for project management services. Funds will be used to support design development, updated cost estimates, and contract documents for sealed bids, as well as a licensed architectural historian to complete a Section 106 review.
LCPC	Belvidere	88.60%	9,021	3/6/2024	The town has a project to develop a forest management plan for town-owned forest with a focus on carbon sequestration, resource management, wildlife habitat and outdoor recreation. The town has another project to plan and implement necessary upgrades, installation and replacement of playground equipment and areas to conform with public playground safety standards.
RRPC	Benson	95.90%	35,000	4/3/2024	The Rutland Regional Planning Commission will acquire and manage grant funds to improve the recreational value of these community facilities by creating accessible parking (which meets the ADA standards), fixing flooding issues with green spaces, and construction a pavilion on an underutilized slab adjacent to the Town Clerk's Office.
NRPC	Berkshire	61.10%	9,000	1/9/2024	to prepare designs and estimate costs for accessibility improvements at its Town Hall. The Town Hall serves as the local Emergency Operations Center for the town, meaning that the building's accessibility is an important aspect of climate change resilience in the town.
TRORC	Bridgewater	75.30%	53,754	1/25/2024	Town is proposing to construct a new sand shed at the town garage parcel to contain the existing sand pile on site. The construction of the concrete walled, steel fabric arch building will improve the operations of the Bridgewater Highway Department with organized piles for sand for the town. The town has a large pile at the end of the fall for its 45-miles of class 2 and 3 roads and may have a small leftover pile in the spring that it maintains. This large open air pile is a large source for untreated stormwater runoff year-round.
TRORC	Brookfield	72.80%	15,754	1/23/2024	The town's plan will expire in September 2024. Maintenance of a town plan, especially a regionally approved town plan will allow Brookfield continued access to grant programs that require a town plan or a regionally approved town plan.

Other Partner Project Support					
Region	Town	VCI	Funding	Description	Provider
NVDA	Craftsbury	57.00%	8,320	Saplings Childcare Center Development	VHCB
NVDA	Canaan	83.80%	5,393	Alice Ward Memorial Library Renovation	VHCB
CVRPC	Plainfield	76.10%	7,215	Plainfield Co-op Redevelopment & Expansion	VHCB
NVDA	Barnet	55.80%	4,163	McIndoes Academy	VHCB
TRORC	Newbury	54.60%	200	Well's River Library	PTV
ACRPC	Weybridge	64.30%	200	Town Hall	PTV
WRC	Athens	94.70%	200	Meetinghouse	PTV
TRORC	Tunbridge	68.80%	100	White River Land Coll	PTV

NVDA	Brownington	93.50%	990	4/16/2024	The project entails exploring the feasibility of establishing a small retail space and community space at the site of the Evansville Trading Post under the aegis of the Brownington Community Trust, an emerging non-profit community organization currently considering purchasing the site. Funds will be used to procure third-party consultants, including business feasibility/planning consultants, and legal counsel.
CVRC	Cabot	65.50%	7,000	3/1/2024	Central Vermont Regional Planning Commission has been working with the Town of Cabot to submit a BRELLA application through MTAP. We would like to be able to continue our support of this important project through project management and implementation should they be awarded BRELLA funds. This project is important to the Town as well as the region in mitigating the effects of flooding downstream.
NVDA	Canaan	83.80%	9,520	2/26/2024	for the purposes of acquiring consultation services to update their Town Plan. Their current plan expires on 3/7/25
MARC	Cavendish	40.00%	45,000	2/8/2024	Project is based on hydraulic and hydrological studies with preliminary design to mitigate flood risk along the Black River and its major tributaries.
TRORC	Chelsea	76.50%	25,000	12/7/2023	Seeking to perform retrofits to its existing wastewater treatment plan. The plants pump station is decades beyond its useful lifespan and is accessible only via a 20-foot-deep dry well that is vulnerable to flooding and unsafe for the plant's operator. The Town seeks to rebuild the pump station above grade to ensure operator safety and enhance the plant's resilience to extreme weather.
TRORC	Granville	96.70%	5,000	1/9/2024	to evaluate accessibility needs for the Town Hall, prepare architectural and engineering plans for identified accessibility modifications, and complete pre-construction environmental review work. It's anticipated that the project will consider modifications to the front doors, outside stairs and landing, the wheelchair ramp, and access to the second floor.
NVDA	Groton	82.90%	18,075	2/9/2024	seeks assistance with the restoration of town survey maps that date back to the 1950's. These maps are used to determine property boundary lines and inform citizens in their deed research of the town. The survey maps were originally developed to create tax maps. There are 325 maps of various sizes with varying degrees of wear and tear from use and age. 70 of the maps are in need of restoration and repair.
TRORC	Hancock	86.20%	7,000	3/27/2024	Hancock will be applying for a CDBG plannint grant (\$60K) to prepare a feasibility study for a proposed housing project on the Town-owned Taylor Meadow property, and to complete some preliminary environmental review work. It is anticipated that the Town will apply in the fall of 2024.
NVDA	Hardwick	31.50%	80,000	1/5/2024	Seeking assistance with the design and engineering of a new municipal infrastructure campus (on Creamery Rd). The campus will co-locate a new Town Garage, Hardwick Fire Department, and Hardwick Rescue. Conceptual plans exist for the new Town garage site which will replace the existing undersized town garage, however the plans don't include a new location for the fire department or rescue. The existing fire station resides in an area that floods repeatedly. The relocation of this critical infrastructure will help make the community more flood resilient.
NRPC	Isle La Motte	80.90%	65,000	1/9/2024	Town is seeking assistance with the reuse of its school and old Town Hall buildings. The school was closed permanently in 2020 due to lack of enrollment. The town is considering how best to use these two buildings (town hall & school) to support economic development or housing in the community. The town is working with NRPC to develop its first ever town plan which will focus on a reuse of these buildings as a key elements.
LCPC	Johnson	25.50%	21,204	5/10/2024	The town is working with Mumley Engineering Inc. to complete environmental review, final design, subdivision, and permitting for a development light industrial/commercial park on town-owned land. The town has completed preliminary design and been awarded an NBRC grant for construction.
LCPC	Johnson	25.50%	22,777	5/10/2024	The village is working with Aldrich and Elliott to conduct a CWSRF Step 0 - feasibility study to investigate wastewater treatments options. In July of 2023, the existing treatment facility succumbed to flooding with extensive damage resulting. The village is exploring onsite mitigation and relocation options.
LCPC	Johnson	25.50%	9,143	5/10/2024	The village is working with AES Northeast to develop architectural designs for the reconstruction of a Water & Light garage to replace the former building damaged by mold exposure.

WRC	Readsboro	77.30%	200		Bullock Block	PTV
TRORC	Sharon	50.20%	100		Baxter Memorial Library	PTV
TRORC	Sharon	50.20%	100		Old Town Hall	PTV
WRC	Brookline	93.90%	288		Meetinghouse	PTV
TRORC	Corinth	73.20%	163		Town Hall	PTV
NVDA	Charleston	73.60%	50		Museum	PTV
NVDA	Brownington	93.50%	50		Community Trust	PTV
NVDA	Guildhall	85.40%	250		Historic District	PTV
NVDA	Lunenburg	89.80%	150		Gilman Middle School	PTV
NVDA	Lunenburg	89.80%	163		Alden Balch Library	PTV
NVDA	Granby	98.70%	100		Schoolhouse	PTV
NVDA	Concord	85.00%	100		Old Town Hall	PTV
NVDA	Holland	78.90%	100		Community Church	PTV

BCRC	Landgrove	67.20%	55,000	1/26/2024	Seeking assistance with the relocation and cover of its winter road sand and salt pile. The current location falls within a class 2 wetland and flood hazard area and the pile is uncovered year round. The town recently acquired a 4-acre parcel on which a new pile site is to be located. An access driveway is currently being constructed so that the site can be cleared in preparation for site assessment, planning, and permitting for a new covered shed.
NVDA	Lunenburg	89.80%	72,500	3/29/2024	Assistance with the preliminary assessments of the Gilman Middle School to evaluate environmental needs, architectural and structural needs, and evaluate the financial feasibility of the project for redevelopment. Gilman is an unincorporated village in the Town of Lunenburg.
CVRC	Marshfield	68.40%	7,000	1/1/2024	Provide ongoing support to the town of Marshfield with administration of the Emergency Watershed Protection (EWP) project.
CVRC	Middlesex	43.30%	7,000	2/14/2024	Provide ongoing support to the town of Middlesex with administration of the Emergency Watershed Protection (EWP) project.
TRORC	Newbury	54.60%	10,000	2/19/2024	TRORC will assist the village of Wells River Trustees in preparing a 10-year capital budget and program (CBP)
TRORC	Newbury	54.60%	25,000	4/30/2024	The Wells River wastewater system is 40+ years old, so the Village of Wells River is seeking RPC support in seeking grants for their wastewater system. The Regional Commission will assist the village in applying to an appropriate grant depending on the extent and continuation of infiltration issues into their wastewater lines. The system has significant needs beyond the immediate concerns about infiltration.
RRPC	Pawlet	79.70%	55,000	4/1/2024	The town is seeking assistance to provide engineering and project management services to support a wastewater project in West Pawlet Village. The town has identified this project as the top priority in the 2023 village master plan. The towns wastewater system has growing operation expenses including sludge removal/trucking, that are creating unsustainably high user fees.
TRORC	Pittsfield	75.70%	2,950	11/16/2023	The town is pursuing a VT Outdoor Recreation Economic Collaborative grant to engage in a planning and design process gathering resident interest in improvements to the Recreation Field. Initial ideas for improvements might include an adult exercise station path around the field, extending the children's playground, adding a gazebo and grill area, area for a Farmer's Market, or space for a community run snack bar.
TRORC	Pittsfield	75.70%	10,000	11/16/2023	TRORC will assist the Pittsfield Selectboard in preparing a 10-year capital budget and program (CBP).
TRORC	Rochester	67.60%	12,000	3/4/2024	TRORC will assist the Rochester Selectboard in preparing a 10-year capital budget and program (CBP).
BCRC	Rupert	84.20%	35,000	2/20/2024	Seeking assistance to secure funding for and to implement a landscape architectural plan for the town green. The town green parcel is directly adjacent to the Sheldon's Store Community Center and Cafe (project of the Rupert Town Village Trust) which seeks to revitalize the village general store and grand hall to serve as a cafe and event space. The project involves improvements on the town green parcel including an expansion to the gravel parking lot, improvements to the picnic areas, construction of pathways and installation of an information kiosk, playground equipment, gazebo, native plan garden and other plantings.
ACRPC	Salisbury	51.80%	100,000	2/23/2024	Seeking assistance with the planning process required to redevelop the Town Hall, which contains the towns public library. The Town Hall has never had water and wastewater facilities which limits its use as a public building and the library's ability to serve multiple demographics. The redeveloped property will allow the library and historical society to deliver consistent expanded services, afterschool resources, access to WiFi and computers, and community programs and events.
BCRC	Sandgate	88.20%	25,000	2/15/2024	Seeking assistance with renovations to its own office building to serve as an emergency shelter. A new water supply will be needed as the town office building doesn't have a source of potable water. Interior renovations to allow for temporary sleeping accommodations and for non-perishable food storage are also envisioned.
WRC	Searsburg	99.10%	75,000	4/22/2024	The town is seeking to identify scope, engineer and permit potential solutions to address sedimentation and water quality issues caused by culvert #14 on Sleepy Hollow Rd.
TRORC	Sharon	50.20%	6,000	4/22/2024	TRORC will assist the Sharon Selectboard in preparing a 10-year capital budget and program (CBP).

MARC	Reading	89.40%	100	General Store	PTV
NVDA	Lunenburg	89.80%	150	Old town Hall	PTV
RRPC	Pawlet	79.70%	42	Wastewater	Stone
WRC	Searsburg	99.10%	85	Climate Resilience	Stone
WRC	Wardsboro	76.90%	133	Hydrology Study	Stone

CCRPC	St. George	53.80%	43,000	2/15/2024	The Villa Mobile Home Park Co-Op houses over a third of St. George's population. CCRPC will assist the town in keeping updated with the Villa Mobile Home Co-Op's preliminary engineering reports for water and wastewater. CCRPC will add capacity to investigate connecting the mobile home park to the Town water supply and the Town Center Association's wastewater system.
TRORC	Stockbridge	53.00%	5,000	12/12/2023	TRORC will assist the Stockbridge Selectboard in preparing a 10-year capital budget and program (CBP).
BCRC	Sunderland	56.20%	45,000	2/12/2024	Seeking assistance to assess the viability of restoration and conversion of the historic Sunderland Union Church into a public community space. If found to be a viable project, the town would seek funds to undertake the restoration of the iconic white steepled church.
WRC	Wardsboro	76.90%	65,000	3/13/2024	The town recognizes the increasing vulnerability of its infrastructure to flooding and the need for comprehensive hazard mitigation planning. The goal of the proposed project is to use a hydrology study to evaluate, assess, and prioritize critical infrastructure components, particularly culverts and bridges.
TRORC	West Fairlee	95.10%	7,000	3/4/2024	TRORC will assist the West Fairlee Selectboard in preparing a 10-year capital budget and program (CBP).
TRORC	West Fairlee	95.10%	17,500	3/18/2024	TRORC will assist the West Fairlee Selectboard in identifying an appropriate consultant to conduct an assessment for Bean Hall, which is an underutilized and decaying 3-story town owned building on the same lot as the Town offices and library. An appropriate contractor will consider the towns identified options for the building and determine what considerations and estimated costs the town should take into account when deciding what to do with the structure. The assessment will be used by the town to determine next steps which may include pursuit of grant funding to undertake repairs.
WRC	Weston	45.30%	50,000	12/10/2023	Weston seeks to improve its flood resilience by reducing flooding upstream of town and in its village center. To do so, Weston plans to engage an engineering vendor to complete a hydrologic and stream geomorphic assessment, analyzing Weston's current flood and fluvial erosion vulnerability, evaluate options to improve it, and develop financial estimates for those options.
LCPC	Wolcott	56.60%	41,689	1/25/2024	The town is applying for funding including the ACCD Community Recovery and Revitalization grant and a congressionally directed spending request to fund portions of their community Wastewater project. The town will also be preparing for a bond vote in 2024 and will work with the consultants, local Wastewater Committee and Selectboard to develop a local ordinance, organize public meetings, and other public outreach activities in preparation for the vote.
WRC	WRC Consultant 1	89.90%	14,500	8/2/2023	General consulting agreement to assist Windham Regional Commission in providing support to towns in the Winham region.
WRC	WRC Consultant 2	89.90%	14,500	8/2/2023	General consulting agreement to assist Windham Regional Commission in providing support to towns in the Winham region.

Unfunded Projects:

Region	Town	VCI	Funding	Submitted	Project Name	Project Description
ACRPC	Starksboro	55.40%	35,000	4/29/2024	Starksboro, Town Hall Accessibility	The town has allocated local ARPA funds in support of the work needed for the town hall building. We request additional funding from MTAP to help us leverage the investment in the community and spread the impact of the dollars to the greatest extent possible. Starksboro seeks support for this work to create full access to make our Town Hall building and to make this building ADA compliant.
ACRPC	Starksboro	55.40%	50,000	4/29/2024	Starksboro Village Water Co-op	The Town of Starksboro is seeking MTAP funds to conduct a Preliminary Engineering Review (PER), at the request of the State, that will help us identify what can be done to bring the system back into compliance and provide a plan for identifying leaks to reduce waste, preserve resources, and determine capacity for future housing in the village.
ACRPC	Weybridge	64.30%	39,000	4/19/2024	Weybridge, Town Hall Improvements	assistance with the planning process required to redevelop the Town Hall. The Town Hall has never had water and septic facilities, which limits its use as a public building. The lack of potable water, wastewater, and adequate space for parking limits the building's ability to be used by members of the Weybridge community. The redeveloped property will allow the space to be used by more members of the community and could make the space available for hosting programs and events. Additionally, redeveloping this historic building presents an opportunity to explore the possibility of relocating the town offices, further optimizing the use of space for the benefit of all residents.
ACRPC	Shoreham	60.30%	12,000	3/8/2024	Shoreham, VT, Housing Market Study	Shoreham, VT, wants to sell a town owned property to a developer to build housing. The property (Farnham Property) is in the Village Residential zone and has water and wastewater facilities. The Town seeks support to develop a Housing Market Study to determine the housing needs of its current and future residents and demonstrate the viability of the project to buyers/developers.
ACRPC	Bridport	72.00%	10,000	3/19/2024	Bridport Housing and Economic Development Planning	The Town of Bridport desires to engage in a planning study to help it expand its housing base and expand economic opportunities in Town. Details of its proposed planning study are attached to this document in Attachment A, its Scope of Work.
CVRPC	Roxbury	92.30%	7,000	3/11/2024	Water/wastewater Village of Roxbury	Tasks 2 through 4 for water/wastewater infrastructure and eval for garage
LCPC	Johnson Village (Johnson)	25.50%	36,822	3/29/2024	Amendment: Johnson Village Wastewater Treatment Facility: Flood Mitigation & Relocation Project additional funding	Secured: Step 1 CWSRF (Alternatives Analysis/Feasibility Study). Work in progress. Planned: FEMA Public Assistance. LCPC staff are working with the Village, FEMA and FEMA consultants re: the Benefit Cost Analysis to determine whether the treatment plant is eligible for relocation vs mitigation funding.
NRPC	Montgomery	70.80%	20,000	4/24/2024	Montgomery Center Wastewater Service	Hiring a project manager for the Montgomery Center Wastewater Service project. The need for a wastewater system was identified in 2019 during community workshops led by the Vermont Council on Rural Development, and the project was approved by voters in 2020. Construction on the system is expected to begin in 2025. The project is currently being managed by the selectboard chair and town treasurer and additional staff capacity is needed in order to implement this high priority project.
NRPC	Richford	61.90%	65,000	4/30/2024	Wastewater Capacity Improvements	Assist Richford with municipal technical services associated with conducting wastewater capacity improvements
NRPC	Franklin	59.10%	8,000	4/24/2024	Town Plan Update	The Town of Franklin seeks assistance with updating its town plan. Franklin's current town plan was adopted in 2017 and is set to expire in 2025. NRPC will provide technical assistance to Franklin in updating the plan over the coming year to reflect current needs and priorities in the upcoming 8-year period.
NVDA	Brownington	93.50%	47,500	4/17/2024	Evansville Trading Post	The project entails exploring the feasibility of establishing a small retail space and community space at the site of the Evansville Trading Post under the aegis of the Brownington Community Trust, an emerging non-profit community organization currently considering purchasing the site. Funds will be used to procure third-party consultants, including business feasibility/planning consultants, and legal counsel.
NVDA	Irasburg	87.80%	75,000	4/10/2024	Town Campus	assistance with the design and engineering of their Town Buildings Campus, composed of the Town Hall, Town Garage and Fire Station. The Town Garage and Fire Station are currently sharing a building, which has presented many challenges. In efforts to improve a moisture issue in the shared building, it was discovered that there is extensive rot. This is on top of existing challenges with dust and salt mixing with fire department equipment, insufficient bathroom facilities, no septic system on site, and overall decline of the building.
NVDA	Albany	91.40%	75,000	4/17/2024	Albany Town hall	Building on the conditions report completed by Edwards & Company, an architectural/engineering firm will identify programming and design needs to develop a comprehensive and resilient budget to support grant funding and taxpayer support for comprehensive renovations to Albany's historic Town Hall
NVDA	Peacham	58.20%	31,500	4/24/2024	Peacham, Project Management Services, Town Hall Renovations	Project management services on the planned Town Hall renovation project. Funds will pay for the services of an MEP engineering subcontractor to work with their architect to address electric load, telecommunication needs, and fire alarm systems. Funds will also help defray the cost of permitting (Dept. of Fire Safety) and will pay for the services of a licensed architectural historian to complete a Section 106 review of the proposed renovations
NVDA	Newark	89.00%	3,550	4/30/2024	Newark Town Plan	NVDA will coordinate and procure prj. ng services for the Newark Town Plan.
RRPC	Benson	95.90%	8,000	3/26/2024	Benson TP Update	The Town of Benson is seeking assistance to provide comprehensive updates to their Town Plan. Benson is a very small town with only a few part-time municipal staff and volunteer planning commission, which makes updating the town plan extremely difficult with limited capacity.
RRPC	Mount Tabor	90.20%	7,000	3/26/2024	Mt Tabor Flood BRIC	The Town of Mt. Tabor is seeking assistance to provide local project management services to support a recent Federal Emergency Management Agency (FEMA) Building Resilient Infrastructure and Communities (BRIC) award to the Town of Mt. Tabor for a flood risk scoping study.
RRPC	Middletown Springs	77.70%	8,000	3/26/2024	Middletown Springs Town Plan Update	The Town of Middletown Springs is seeking assistance to provide comprehensive updates to their Town Plan.
RRPC	Timnouth	82.10%	18,000	3/27/2024	Timnouth Historic Preservation	Preservation of the historic Old Creamery building in the Village. Currently, there is structural and siding work required to bring the property up to standard at an estimated cost of \$100,000. The funding would include engineering and permitting from a consultant, preferably Stone Environmental or a smaller local firm like Marble Valley Engineering.
RRPC	Middletown Springs	77.70%	13,000	4/3/2024	Middletown Springs Emergency Operations Center Solar Installation	through the Municipal Technical Assistance Program, the Rutland Regional Planning Commission will apply for and secure grant funding to purchase and install a solar array on the Town Clerk's Office, increasing its ability to function as an Emergency Operations Center while also reducing its carbon emissions for daily use.
RRPC	Timnouth	82.10%	16,000	4/19/2024	Timnouth Salt and Sand Storage Shed	The Town of Timnouth seeks to construct a new Sand and Salt Storage Shed to better accommodate its maintenance needs considering new weather patterns experienced due to climate change (including increased flooding and runoff). Initial conceptual design documents detailed construction costs prohibitive for the project, and the Town of Timnouth is now requesting that their Consultant (DuBois & King, Inc.) revise these documents to make the project more affordable. The Municipal Technical Assistance Program will provide funding for the necessary design revisions, as well as right-of-way (ROW) clearance by a qualified attorney.
RRPC	Danby	71.20%	7,000	4/15/2024	Village Center Flooding	Utilize MTAP funds to provide grant writing, grant administration, and project management services that will include technical assistance, meeting and town coordination, invoicing, consultant procurement, and plan review for the flood risk scoping study. The FEMA BRIC award severely limits the funding available for project management and this would supplement that funding to provide more comprehensive support for the Town. Danby has no capacity to implement or manage this grant without significant technical support from the RRPC.

BRPC	Proctor	50.60%	125,000	4/10/2024	Wastewater	The Town of Proctor is seeking assistance to provide engineering and project management services to support a wastewater project in the Village of Proctor. The project includes engineering design and construction of two (2) replacement wastewater lagoons. The current lagoons are critically old and failing. Rutland Regional Planning Commission will utilize MTAP funds to provide project management services that will include technical assistance, meeting and town coordination, consultant procurement, and grant application/management, and general project management.
BRPC	Sudbury	74.00%	42,500	4/24/2024	Sudbury Town Garage Energy Efficiency Improvements	The Town of Sudbury is seeking assistance to secure funding for weatherization and installation of heat pumps on their Town Garage. These improvements will increase the energy efficiency of the building, decreasing its carbon footprint and reliance on the electric grid.
BRPC	Hubbardton	70.40%	30,000	4/19/2024	Hubbardton Town Office Upgrades	The Town of Hubbardton is seeking assistance from the BRPC to provide local project management services to support energy efficiency and weatherization upgrades to the Hubbardton Town Office. The Town Office is the only public venue in Hubbardton and is the central meeting place for town business and events. The Town is interested in exploring energy efficiency and weatherization upgrades that include new windows, heat pumps, and insulation. Hubbardton is not considered a "high energy burden town" according to the energy burden report used for the Municipal Energy Resilience Program (MERP), thus making their project not likely for MERP implementation funds. The Town Office building did receive an energy audit from the MERP program that could be used to inform this upgrade.
BRPC	Shrewsbury	52.20%	36,000	4/24/2024	Shrewsbury Culvert Replacement	The Town of Shrewsbury currently holds a \$200,000 grant from the Vermont Agency of Transportation to replace a box culvert on a major town road. The project cost is currently estimated at \$440,000, and the Town is requesting assistance through the Municipal Technical Assistance Program to receive supplemental funding to cover engineering costs for the completion of this project.
TRORC	Corinth	73.20%	10,000	3/15/2024	Corinth Town Hall Improvement Project	Corinth will be applying for the ACCD Historic Preservation Grant in fall 2024 to rehabilitate the Town Hall (necessary repairs and corrective measures such as re-building the cornices and gutters, window restoration, etc.)
TRORC	Braintree	69.20%	17,500	4/26/2024	Braintree Municipal Buildings Feasibility Study	TRORC will assist the Braintree Selectboard in identifying an appropriate consultant to conduct a higher-detail feasibility study for exploring possible ideas for the following municipal buildings (Town Hall, Town Office, and Garage). An appropriate contractor will research the Town's options for the buildings and provide factors that the Town should consider when deciding what to do with the structures. This assessment will be used by the Town to determine the next steps, which may include pursuing grants to undertake repairs and construction.
TRORC	Fairlee	95.10%	12,000	4/30/2024	Fairlee Wastewater Feasibility Study	The Town of Fairlee is seeking assistance RPC support for a wastewater feasibility project. The Regional Commission will assist Fairlee in applying to the Engineering Planning Advance through DEC, Clean Water State Revolving Fund (CWSRF), USDA Rural Water and Environmental Programs (USDA RD WEP) or other appropriate grant opportunities pending results from the in-progress study in summer 2024. The purpose of these applications would be to assess the feasibility of wastewater solutions, such as municipal septic, to prepare for continued village growth.
WRC	Brookline	93.70%	36,100	4/29/2024	The Historic Meetinghouse Feasibility Study	Brookline requests \$36,100 in MTAP funding to develop an architectural feasibility study of renovations to its historic Meetinghouse. A renovated Meetinghouse space will serve as a community center for social, recreational, civic, and emergency purposes.
WRC	Windham	72.40%	9,500	4/30/2024	WINDHAM Master Plan and Facility Assessment	Engage an architectural professional in a preliminary master plan and facility assessment of key community facilities. This preliminary assessment will complement a planned long-range planning and community needs assessment process. Together, these planning projects will inform decision-making for the Town and community organizations, leading to more targeted and effective initiatives to enhance quality of life.
WRC	Weston	45.30%	41,422	3/20/2024	Amenement: Improve Weston Flood Resilience additional funding	Improve flood resilience by reducing flooding upstream of town and in village center. Weston plans to engage an engineering vendor to complete a hydrologic and stream geomorphic assessment, analyzing current flood and fluvial erosion vulnerability, evaluate options to improve, and develop estimates for those options. Plans to engage a project manager to serve as the Town's liaison to the engineering firm, and to manage project and pursue funding opportunities.
WRC	Readsboro	77.30%	80,000	4/26/2024	Readsboro Public Works Garage	To build resiliency within the Town of Readsboro's Highway Department to improve preparedness, response, and recovery from climate change impacts. Hiring a Project Manager to obtain permitting, bid documents, and other services as needed for a new Public Works Garage. Permitting cost are included in the Scope of Services.
WRC	Wardsboro	78.90%	33,000	4/30/2024	Town Office Schematic Design	1) improve accessibility and 2) improve/upgrade/expand the building to increase usability for staff and residents.
WRC	Newfane	71.60%	50,000	4/27/2024	Newfane French Cabin Road Flood Resilience and Water Quality	The Town of Newfane seeks to identify, scope, engineer and permit potential solutions to address sedimentation and water quality issues caused by culvert #1 on TH-36 French Cabin Road.
WRC	Grafton	70.00%	60,000	4/30/2024	Grafton Resilience: Village Stormwater Drainage Feasibility Study	To build resiliency within the Town of Grafton for a feasibility study around a long-term stormwater drainage pipe that flows through the Village. The pipe is now old and deteriorating and needs replacement or another alternative.
WRC	Whitingham	57.40%	50,000	4/29/2024	Whitingham Public Works Garage Renovation for Resilience	To rebuild the Town of Whitingham Highway Department garage on the existing site to improve preparedness, response, and recovery from climate change impacts. Final design and engineering services are needed for the resilience of the new public works garage.
WRC	Londonderry	27.50%	60,000	4/30/2024	Londonderry Resilience: Cobble Ridge and Stone Hollow Roads Resilience	Feasibility study to identify alternate route to houses which are hard to access in a flood
WRC	Brookline	93.70%	20,800	4/29/2024	Town Plan Update	Complete a comprehensive update to the 2017 Town Plan, with particular focus on strengthening the Flood Resilience Element of the Town Plan to improve community resilience for future flood events.
WRC	Putney	51.00%	10,000	4/27/2024	Putney Town Hall Rehabilitation Project	Putney Town Hall Rehabilitation Project will modernize Putney Town Hall through accessibility and energy efficiency improvements allowing it to remain the cultural center of the town for long term resiliency.
