Recreation & Wellness Center

Welcoming people to campus

- In the past 12 months, UVM Athletic and Recreation facilities have had over 900,000 visits from a combination of students, faculty, staff, and Vermonters from every corner of the state.
- This includes ~373,000 visits from individuals not directly associated with UVM (i.e. youth and high school activities, adult leagues, Special Olympics, concerts, dance performances, etc.)
- 90 different outside user groups reserved time in UVM facilities over the past 12 months.
- UVM hosted 10 different VPA State Championships this past year.
- We expect usage of the MPC facility to at least double once the facility is upgraded.
