

Good morning,

My name is Brendon Blood. My wife Sara and I own Blood's Catering & Party Rentals in White River Jct, VT. Our business started in 1947 and we are third generation owners. We have a daughter who plans on taking over as a fourth generation owner.

We are asking at this time for you to reconsider amendments to S.71 because of the impact it will have on businesses like ours. Although we don't currently do a lot of online marketing we are planning on doing it in the near future. We are very concerned that this version of legislation being considered in the House is taking the regulations too far.

Just like other Vermonters, we live and work in this great state and want our own business and personal data protected and find S.71 to be sufficient for accomplishing that. Furthermore, I would add that the challenges of doing business in VT are already very burdensome as we work under regulations in Vermont alone from 11 different agencies.

We respectfully ask that you pass the current Senate version of S.71.

Thank you for your time.

Brendan Blood
