VHFA's Role in Vermont

Benefits of borrowing from VHFA

Homebuyers

- Interest rate ~½ point less than others
- \$15,000 in down payment loan
- \$15,000 down payment grant for 1st Generation buyers
- Lower Property Transfer Tax

Rental Developers

- Lower interest rates
- If housing is affordable, VHFA loan could unlock federal tax credits that pay for 35% of the building
- 30- and 40-year financing
- More generous underwriting
- Some loans are subsidized

2024 VHFA homebuyers by the numbers

357 homebuyers used VHFA programs (68 government loans, 289 conventional)

\$82 million - total loans (\$17 million government, \$65 million conventional)

55% received Down Payment Assistance when using VHFA programs

90% - first time home buyers

95% - attended homebuyer education

\$78,102 - median VHFA homebuyer income

\$260,000 - median home price

\$229,904 - average loan amount

History of State Tax Credit Funded Down Payment Assistance (DPA)

- Legislature created in 2015 ([Act 51](#)) assuming \$5,000 maximum

Opportunities to Utilize Off-Site Construction to Meet Vermont's Housing, Workforce and Climate Goals

by Seth Leonard and Jeffrey Lubell

Review national and international trends in advanced building methodologies through a literature review, to inform Vermont's investment and policy framework. Include a review of past investments.

Create a point-in-time inventory the private and public off-site, modular, and manufactured housing initiatives across the state through a surveys and interviews.

Assess whether/how Vermont should invest funding or policy resources to support advancement of new building methodologies.

Employers and municipalities want to be part of the solution

Employers having difficulty attracting and retaining employees are participating in development of new housing or acquiring existing rental properties.

Municipalities have created revolving loan fund or housing development grant pools that are often too small to make a meaningful impact on their own.

Vermont's homes don't meet needs

Supply vs Demand: Housing Type

Program fills gaps that hamper creating homes affordable for middle income buyers

Why do these gaps exist?

Homes cost more to build than they will appraise for
Homes cost more to build than middle income buyers can afford

Homes underway in 20 Vermont communities

125 for sale homes funded

Homes funded	125
Bedrooms built	322
Average subsidy per home	\$130,000
Average purchase price	\$195,000
Shared equity homes	69 (55%)
Neighborhoods expanded	20
Total funding deployed	\$24 million

Top photo: Homebuyer Elizabeth Poquette, her mother, Janet Brunet, and Elizabeth's son, Thatcher.

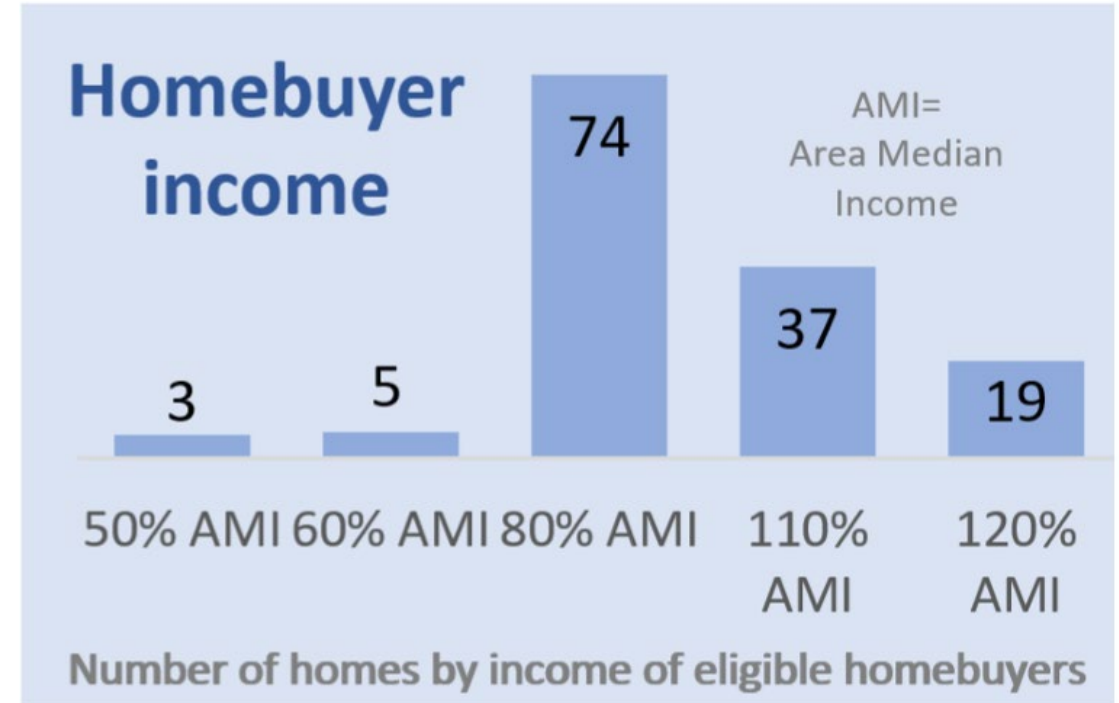

Lower photo: Completed home in Burlington

Program builds homes primarily for middle income homebuyers

- Program provides long-term affordability for future homebuyers
- 55% of all homes funded are shared-equity homes
- Subsidy retained for all homes developed through limits on future sales prices.
- Average homebuyer household income was just under 100% AMI
- \$82,000 = median income for 2 person household
- They can afford a \$320,000 home

VHFA's 2025 Legislative Priorities

- Extend the State Housing Tax Credit sales for 5 more years to fund Down Payment Assistance Program
- Tweak the Rental Revolving Loan Fund statute to allow for VHFA to manage rent increases
- Continue & sustain funding for First Generation Homebuyer Grant program
- Extend sunset of group net metering for affordable housing until 2029
- Support PHP-replacement recommendations
- Support off-site manufactured housing next steps
- Support Housing and Homeless Alliance of Vermont's priorities
- Support Let's Build Homes' priorities
