Phones in Schools?

Update from Vermont Principals' Association,
4/17/25 for House Education Committee, RE:
H.54

What is the world's smallest mammal?

Bumblebee Bat Facts

The bumblebee bat is also known as Kitti's hog-nosed bat.

There is little information about the reproduction of the bumblebee bats.

There are mixed reactions towards the monks meditating at these caves.

The lifespan of bumblebee bats is 5 to 10 years.

Bumblebee bats have a short activity period.

Their main sources of food are insects and spiders.

Bumblebee bats live in limestone caves near rivers.

Human activities are endangering the habitats of the bumblebee bats.

The latest wild sighting of the bumblebee bats was at Krabi, Thailand.

A conservation program was launched to protect the bumblebee bats.

Vermont Schools Are Banning Smartphones to Limit Distractions

Phones and social media are affecting young peoples' ability to focus and hurting their mental health, so schools are rolling out restrictions.

Publi

Vermont High Schools, Examples:

“

Cell phones and wireless earphones are not needed in the classroom and do not support learning. In each class, students will be assigned a numbered wall storage pocket. If students bring a phone to school, they have three options during class time:

- 1) Put the (muted) phone in your assigned classroom pocket; or
 - 2) Keep the (muted) phone in a backpack for the entire class; or
- Check the (muted) phone into the locked phone storage locker in the main office for the day. -Burlington High School

”

Legislation

Vermont sues Meta, alleging that Instagram has harmed young Vermonters' mental health

In its own investigation and lawsuit against the tech giant, the state Attorney General's Office accuses Meta of violating Vermont's Consumer Protection Act.

As of April 2025:

9 states have passed laws banning or restricting phones in schools. 16 states are pending, additional states have policies requiring local districts to enact.

41 states have sued Meta and 14 states have sued TikTok

BILL AS INTRODUCED
2025

H.54
Page 2 of 7

1 Referred to Committee on

2 Date:

3 Subject: Education; cell phone-free schools

4 Statement of purpose of bill as introduced: This bill proposes to prohibit the
5 use of cell phones and personal electronic devices during the school day in
6 public schools, independent schools, career and technical education centers,
7 and prequalified private prekindergarten programs, as well as to prohibit

Questions that arise:

What about apps like parentsquare?

What about learning to manage the responsibility?

What about rapidly evolving technology? School computers, glasses, watches, earbuds, vapes etc.

What about practical uses (e.g. kahoot)?

What about doctor notes?

What about district/school promotion on social media. After school hours? E.G. Sports scores?

What counts as social media? Text apps, front-porch forum?

What counts as social media? Text apps, front-porch forum?

What about funding? (e.g. Yondr, boxes, new courses, new content)
