RE: H.600 – Amending Vermon’s appliance efficiency standards

Dear Chair James:

As requested by the committee, VPPSA has reviewed H.600 as introduced as well as the proposed amendment. This is not an area of expertise for VPPSA or its member municipal utilities; therefore, VPPSA does not believe our direct testimony on this Bill would be helpful to the committee.

Our review did not indicate any concerns with either the Bill as introduced or the proposed amendment from a utility perspective.

If you require any further input, please don’t hesitate to reach out.

Sincerely,

Kenneth A. Nolan
General Manager
