S.138

Written Testimony of, Peter Walke, )  
Managing Director, to House Committee on )  
Energy and Digital Infrastructure )

**RE: C-PACE**

Dear Madam Chair,

In follow up to my in-person testimony this morning, I wanted to provide a very simple and explicit recommendation to the Committee. Efficiency Vermont does not maintain the necessary expertise or skillsets to do the financial evaluations required of the program administrator. We request that we be removed from consideration or inclusion in the DFR working group.

I will follow up separately with additional information on the business energy loan program Efficiency Vermont administers.

Sincerely,

Peter Walke

Managing Director, Efficiency Vermont
