

Hello,

I am a constituent who in Underhill who currently opts out of the smart meter and have ever since you implemented them. I take the time to read and send in my meter usage every month as you have stopped sending folks out to read them and am in no way interested in having a smart meter pulsing next to my house and should not have to bear the financial burden of a meter that negatively impacts health that I do not need. Please put the desires and freedoms of Vermonters ahead of businesses demands and do not support this legislation.

Regards,
N Murray
