

May 8, 2025

Representative Kathleen James, Chair  
House Committee on Energy and Digital Infrastructure  
Vermont State House  
115 State Street  
Montpelier, VT 05633

Re: S.50

Dear Representative James:

AllEarth Renewables, Inc. has reviewed the latest version of the above bill, and respectfully requests that the Committee on Energy and Digital Infrastructure concur in those changes when the bill comes up for Committee discussion on Friday. The Senate amendment regarding adjustment to REC elections made between 2023 and 2025 is a reasonable compromise around that issue, and it is important for Vermont's solar customers and climate objectives that the core purpose of the bill – increase in registration eligibility for small projects- be effectuated as soon as possible.

Thank you for the Committee's consideration.

Very truly yours,

***David Mullett***
