Agency of Natural Resources

Letter of Support

To: Vermont General Assembly
From: Vermont Climate Council
Date: December 22, 2025
Re: Regarding Agency of Natural Resources Memo entitled 'Review of Possible Frameworks for a Greenhouse Gas Reporting Program'

This memo is consistent with one of the top priorities from the 2025 Climate Action Plan and we therefore strongly support it. A reporting program is a foundation for future policy, regulatory and planning progress.

We also firmly support the request of the Agency of Natural Resources to have the necessary resources to implement this effort.

This letter was approved by all Vermont Climate Councilors participating in the Council's December 15, 2025, meeting, with the exception of Matt Cota.
