**Subject:** RE: [External] DCF testimony on IE&E

Representative James,

Thank you for reaching out and for your consideration in supporting the IE&E program work. The scope of these projects is at the Agency level and includes both DCF economic benefits programs as well as DVHA's health care programs. I would be happy to share information about the projects we have and the work we are doing.

I won't be able to testify on the IE&E budget today because I would want to ensure that the AHS finance team was available to answer specific questions. We are still evaluating the bids for the VT-IES project and are gaining a better understanding of the costs for implementation.

Please let me know if my testimony would be helpful and again, thank you for your consideration,

Robyn
