

Email accompanying Three-Acre Data from Gianna Pitito 03/14/2025

Dear Chair Sheldon,

Please find attached a spreadsheet with a few additional numbers for your committee related to three-acre. Please note the top line that provides some caution around interpreting the data and potential data gaps. Key takeaways for you include:

1. We estimate roughly 74% of all three-acre sites are making some progress towards permitting compliance
2. Almost \$60 million in public funding has been committed to date to support these sites
3. Roughly 265 sites or 40% of all sites received some public support to date

Please let us know if you have additional data requests. Thank you for your continued support on this bill. Anika may I please request your help, again, sharing this with the committee?

Thank you,

Gianna
