

H.217 - Vermont Clean Air - an act relating to prohibiting geoengineering

<https://legislature.vermont.gov/bill/status/2026/H.217>

H.303 -prohibits the land application of biosolids, sewage and septage.

<https://legislature.vermont.gov/bill/status/2026/H.303>

Your prompt attention and support of these bills will demonstrate to Vermonters that you are working for your state and your constituents.

At a time in history where the public is now aware of the corporate control of our health and our environment, and the lack of interest our elected officials often have toward the job which they are being hired to do: represent us, there is no question that those who do what is in the best interest of the people will be appreciated, noticed and shared far and wide.

Our state is the most beautiful and revered for the green mountain label it was given. The citizens of Vermont live here because we love small farms, clean air and water, hiking, skiing and spending time outside, but our very reason for living here is being threatened by environmental toxins which are being forced upon us from the sky **without our consent**.

I urge you to support these bills as our health, water, air, plants, food, and animals are suffering and as you can see, other states are standing up to this now.

I am a leader in the Make America Healthy Again movement as well as a chapter leader for Weston a Price which is an organization which supports small farmers, food and health. I have a large group of active Vermonters that stand with me and these bills are crucial for our state, farms, health, and children.

I am a Doctor that sees families and children in Southern Vermont and I can say first hand that we MUST make a concerted effort to stop poisoning our air. I encourage you to contact me with any questions and please let me know your thoughts on these bills.

In addition please see the attached invitation for your presence at the 4/10 info session in rm 10 on how to help heal the chronic disease epidemic in Vermont.

Thank you

Dr. Vickie Dubin Master
