

Requested proposal of amendment to H.632, Draft 4.1

Change the language at the end of Section 21 as follows:

(xi) gas cylinders determined by the Secretary by rule not to pose an unacceptable risk to human health, solid waste facility operation, or the environment, and which are not hazardous waste; or

(xii) Single-use and rechargeable handheld fire extinguishers when the manufacturers of those extinguishers or their representatives collect the extinguishers are collected from municipal household hazardous waste collection programs at no cost; or

(xiii) Fire extinguishers that are installed, inspected, maintained, recharged, or removed by fire equipment distributors in commercial, institutional, or governmental buildings in accordance with the Fire & Building Safety Code.
