

Dear Chair Mihaly,

Here is the language that we are suggesting be added to the duties of the Service Supported Housing Advisory Council:

(d) The Advisory Council shall provide advice to the Vermont Housing and Conservation Board regarding the expenditure of funds for the production of permanently affordable housing for individuals who are eligible to receive Medicaid-funded Developmental Disabilities Services.

We are also comfortable charging the Advisory Council with advising regarding future sources of revenue.

Thank you for your work on S. 328.
