# The Need

- \$360,000 increase in base funding for Vermont's certified recovery residences (Sec. B.313)
- Opioid Settlement Funds – Recovery Appropriations:
  - \$1.5 million to support startup and operational costs of recovery residences (Sec. E.313.1)
  - \$325,000 to provide scholarships to cover first month fees for individuals entering a recovery residence (Sec. B.1100)

# The Why

- Recovery residences promote norms that reinforce healthy living skills and associated values, attitudes, and connection with self and community for sustaining recovery.
- There is still significant need and interest in scaling Recovery Residences in Vermont. Currently, there are active efforts underway to bring additional beds online in seven geographic areas.
- The journey to lifelong recovery is paved with hope and concrete supports and services to help people realize their power to stay sober, and scholarship funding helps to create that hope with the concrete support of financial aid.

**Thank You!**
