I am hoping to hear mention in discussion with your Legislative Council the bullet on page 2 of my "Exhibit I" about, "How could this election have been certified?"

Canvassing Committee 17 § 2592 (d), (g), (h)

verses

VT Constitution Chpt 1 Article 8.

That all elections ought to be free and without corruption, ... ..

Even though the corruption by the delivery of the wrong ballots was by accident, the resulting ballot count was corrupted (not pure) because of voters not being able to vote in their district and there-by the ballot tally was not complete. Therefore the certification could not have been completed either.

This topic needs to be discussed.
