

I have worked as an ophthalmologist in Vermont for almost twenty years, and I also teach at our medical school. Issues of medical training and competence are the core of my work. I have previously written to your committee about why S.64 will cause errors and added expense, and will sometimes result in harm. The Stone Amendment is a significant improvement to this bill and I urge you to support this amendment. I thank you for your work and, as previously, I am glad to talk further about this issue. Call me any time 802 343 9592.

Yours,
David Diaz, MD
