

Good Evening,

My name is Michael White, and I am a patient of an Optometrist and an Engineer who has spent the last several years working in Burlington.

Several years ago, I attended a virtual town hall meeting hosted by the Office of Professional Regulation and spoke in favor of my Optometrist being able to perform procedures.

I want the committee to know that, as a member of the public, I have full faith and trust in the profession of Optometry to perform procedures. I have never had an unprofessional encounter.

Would you please let me know if you will be supporting this bill?

Sincerely,

Michael White
