

I am writing both as your constituent and as a primary care provider in rural Vermont to ask for your support to pass S.197. It establishes a framework to shift resources into primary care in the short term, helping to stabilize our vital work while more extensive primary care payment reform can be developed. Our needs are great, and we offer lifesaving and cost-saving services to all Vermonters.

Sincerely,

**Rachel B. Morse, APRN, FNP-BC**

Family Nurse Practitioner

LRHC—Bradford
