

Hello- My name is Mary Button.

I live in rural Vermont.

I am 68 years old and have been coming to the CarePartners Adult Day Center for about 9 years.

I am on the Choices for Care Program.

Being on the Choices for Care Program has helped me in many ways like getting my glasses and having a case worker.

She helps with my medical, comes to my home and checks my blood pressure, and checks in with me at CarePartners.

Without Choices for Care, I would not have the support I need to live independently in my community.

I feel supported and have been happy with the program.

Please continue to support the Choices for Care Program!

Thank you!
