On behalf of the House Human Services Committee please accept the attached recommendations regarding the FY 26 budget and accompanying language. Thank you for the opportunity to weigh in on the priorities that impact Vermonters – from the very young to our older citizens.

The House Human Services Committee identifies these appropriation amounts as being necessary to fully support the human services of Vermonters and, to the extent funds are available, recommends their inclusion in the budget within these prioritization categories.

I am available to provide further information at your request, and my apologies for missing the deadline.
