- **Legally supported, secure, and compliant safety program**

What You Can Expect

- **Roadside speed camera technology**
- **Multipurpose smart mobility platform**
- **A program that delivers results**

Turnkey Programming

ZERO
IN ON SAFETY

TOTAL PROGRAM SUPPORT

**A comprehensive program
that supports administration
and management**

- Equipment
- Calibration
- Deployment
- Maintenance
- Training
- Event Processing
- Notice Print/Mail
- Customer Service
- Reporting
- Public Awareness
- Payments
- Court Support

Deployment Details

- Operators deploy enforcement vehicles and/or trailers to work zones designated by State Agency (date, time and location)
- Each unit is equipped with an independently certified automated speed enforcement system including daily system checks and secondary speed verification for accuracy
- Speeding incidents (images, optional video and data) captured by the systems are downloaded into a secure smart mobility platform

Smart Mobility Platform

**END-TO-END
CASE
MANAGEMENT**

- **Court/Hearing Support**
- **Reporting**

Work Zone Enforcement | Case Study

PennDOT, PTC, PSP¹

The AWZSE² program uses vehicle-mounted systems to detect and record motorists exceeding posted work zone speed limits by 11 miles per hour or more.³

- Workers must be present while AWZSE is active
- First violation – No monetary fine
- Second violation – \$75 fine
- Third and subsequent violations – \$150 fine per occurrence

47% **11+ MPH
SPEED
REDUCTION**

**15 -
50%** **DECREASE
WORK ZONE
CRASHES**
