Re: Vermont Prescription Drug Discount Card Program Savings (H.577)

Date: February 12, 2026

Chair Kornheiser and Members of the Committee,

The ArrayRx Drug Discount Program represents an opportunity for Vermonters to feel immediate relief from the elevated costs of pharmaceutical products in our health care system. We have discussed the program with the Treasurer's Office, as well as the Department of Financial Regulation, and feel comfortable supporting this bill and the rollout of the program.

While we defer to our regulator and the Treasurer's office on the pathway to implementation that best fits the goals of the program and the regulatory nature of our business, we are ready and prepared to implement when asked.

Thank you for your consideration,

Courtney Harness, Director of Legislative and Government Relations

Blue Cross and Blue Shield of Vermont
