Appendix

Detained & Sentenced Total Population: 2018 to Present

Note: Data are reported by biological sex with adjustments for facility type. Individuals who are Intersex, Other, or Transgender are generally counted according to the facility in which they are housed: those in CRCF are included in the Female count, while those in non-CRCF facilities are included in the Male count. Females in male-designated facilities are counted in the Female total. These adjustments affect roughly 1% or less of the population.
