Subject: [External] 25-P045 Vermont Use of Public Waters Rules

[External]

Please distribute to the entire LCAR Committee,

Myself and family disagree with enhancing the wakesports ruling due to many concerns.

One major concern is enforcement, this factor alone will be a difficult task and will probably create many issues. With the lack of law enforcement that all the lakes have had there will be many people that take enforcement into their own hands which will result in chaos, it's just human nature. I believe the lake organizations should create and enforce their own rules and not burden the state at this time.

Secondly this ruling will cause much confusion on the lakes and without clear consistent standards people on the water will not know how to react concerning right of way and standard boating practices. Now this becomes a serious safety hazard for all.

Sincerely from a family that enjoys and respects the lake and everyone on it!

AJ Michel
