**Subject:** [External] 25-p045 Vermont use of public waters

[External]

Please distribute to entire LCAR committee

Totally against the proposed new rules!

1. No scientific study
2. Impossible to enforce
3. Zebra Mussels are carried via wildlife also
4. No wash down stations so why are there fishing tournaments here?
5. Wakeboats basically stay in same body of water where bass boats travel lake to lake so why not focus on them for Zebra?
6. How can anyone judge on the water distance in feet etc
7. If self enforced by public this will cause a hostile environment between the two parties
8. Absolutely not one ticket issued to a VT wakeboard boat in two years
9. VT doesn't have the budget to enforce anything because the state is broke!
10. Most of all wakeboats run in the price range of 145k to over \$500k most people that own and operate these boats are not idiots but very successful educated smart people that are very responsible knowing the responsibility of the wake. I've personally never observed one wakeboat being not responsible.
