To the State Economic Development Committee,

I am writing in support of the omnibus labor bill. More specifically Sec. 11 paragraph G. We as a contractor in this state support these amendments to further ensure the rights of all workers in this state are protected.

Furthermore, we feel these are necessary steps to ensure the prosperity of trades workers and to protect the integrity of these state funded projects and to make sure that tax payer dollars are being responsibly used. We do not feel these amendments would be a burden and would certainly not be a deterrent to bidding upcoming projects, as we already have to follow these rules when doing work that falls under Davis Bacon requirements. We appreciate your time and look forward to your support of these amendments.

Chris Comishock

A handwritten signature in black ink, appearing to read "Chris Comishock". The signature is fluid and cursive, with a large initial "C" and "C".
