

Subject: School Redistricting Map (Grand Isle)

Tue 2/3/2026 10:45 AM

Good Morning our elected officials.

I have reviewed the proposed redistricting map on the state legislature website. I worry about how all of Grand Isle is being redistricted to be with Franklin county. Most people that live in Grand Isle county work in Chittenden county. It would be a massive detriment to the community to lump us in with Franklin county.

Not only is it difficult for families to support extracurricular activities, but it would also mean our kids would be on the bus for a very significant amount of time each day. My child in particular has special needs, and I'm not sure bussing that long is even an option for us, further complicating our commutes to work.

I urge you to ensure Grand Isle county is not forced to attend high school in Franklin county schools. We have a longstanding history of choosing South Burlington or Essex, and I sincerely hope our elected officials will help keep that an option for the Grand Isle community.

Thank you,  
Jonathan
