Ratchapa Pichai
Montpelier, Vermont

Hello. My name is Ratchapa. I am from Thailand. I moved to Montpelier 4 months ago. I followed my husband because he was not moving to Thailand. So, I moved here to stay.

I got information about English classes at Adult Education from the bulletin board at the laundromat. And I wanted to learn to communicate well and get a new job here.

Adult Education gives me a community like a new friends, and a warm heart when I came here. I have friends from many countries, and sometimes I learn new languages also. I have a better pronunciation than before. And I know how to learn grammar and new vocabulary.

Adult Education helps me to think about how to have my dream job in the future. I try to practice English for my dream job, Licensed Nursing Assistant. Right now, I'm working for Walmart as a personal shopper. But it's not my dream job. I am planning to join the LNA class with the hospital. I don't know how I would look forward if I had not met Adult Education.

The U.S. gives me an opportunity, new experiences and makes me stronger than before. And I hope I will start in my new career path successfully.

Thank you.
