12 The purpose of this act is to promote the transformation of Vermont’s

4 insurance coverage.

6 Sec. 2. 18 V.S.A. § 9375 is amended to read:

7 § 9375. DUTIES

8 (a) The Board shall execute its duties consistent with the principles
9 expressed in section 9371 of this title.

10 (b) The Board shall have the following duties:

11 (1) Oversee the development and implementation, and evaluate the
12 effectiveness, of health care payment and delivery system reforms designed to
13 control the rate of growth in health care costs; promote seamless care,
14 administration, and service delivery; and maintain health care quality in
15 Vermont, including ensuring that the payment reform pilot projects set forth in
16 this chapter are consistent with such reforms.

17 (A) Implement by rule, pursuant to 3 V.S.A. chapter 25,
18 methodologies for achieving payment reform and containing costs that may
19 include the participation of Medicare and Medicaid, which may include the
20 creation of health care professional cost-containment targets, reference-based
21 pricing, global payments, bundled payments, global budgets, risk-adjusted

1 hospital fiscal year 2030, the Board shall establish global hospital budgets for
2 all Vermont hospitals.

4 Sec. 3. 18 V.S.A. § 9376 is amended to read:

5 § 9376. PAYMENT AMOUNTS; METHODS

6 (a) Intent. It is the intent of the General Assembly to ensure payments to
7 health care professionals that are consistent with efficiency, economy, and
8 quality of care and will permit them to provide, on a solvent basis, effective
9 and efficient health services that are in the public interest. It is also the intent
10 of the General Assembly to eliminate the shift of costs between the payers of
11 health services to ensure that the amount paid to health care professionals is
12 sufficient to enlist enough providers to ensure that health services are available
13 to all Vermonters and are distributed equitably.

14 (b) Rate-setting.

15 (1) The Board shall set reasonable rates for health care professionals,
16 health care provider bargaining groups created pursuant to section 9409 of this
17 title, manufacturers of prescribed products, medical supply companies, and
18 other companies providing health services or health supplies based on
19 methodologies pursuant to section 9375 of this title, in order to have a
20 consistent reimbursement amount accepted by these persons. In its discretion,
21 the Board may implement rate-setting for different groups of health care

1 professionals over time and need not set rates for all types of health care
2 professionals. In establishing rates, the Board may consider legitimate
3 differences in costs among health care professionals, such as the cost of
4 providing a specific necessary service or services that may not be available
5 elsewhere in the State, and the need for health care professionals in particular
6 areas of the State, particularly in underserved geographic or practice shortage
7 areas.

8 (2) Nothing in this subsection shall be construed to:

9 (A) limit the ability of a health care professional to accept less than
10 the rate established in subdivision (1) of this subsection (b) from a patient
11 without health insurance or other coverage for the service or services received;
12 or

13 (B) reduce or limit the covered services offered by Medicare or
14 Medicaid.

15 (c) Methodologies. The Board shall approve payment methodologies that
16 encourage cost-containment; provision of high-quality, evidence-based health
17 services in an integrated setting; patient self-management; access to primary
18 care health services for underserved individuals, populations, and areas; and
19 healthy lifestyles. Such methodologies shall be consistent with payment
20 reform and with evidence-based practices, and may include fee-for-service
21 payments if the Board determines such payments to be appropriate.

1 (d) Supervision. To the extent required to avoid federal antitrust violations
2 and in furtherance of the policy identified in subsection (a) of this section, the
3 Board shall facilitate and supervise the participation of health care
4 professionals and health care provider bargaining groups in the process
5 described in subsection (b) of this section.

6 (e) Reference-based pricing.

7 (1) The Board shall establish reference-based prices that represent the
8 amounts that health insurers in this State shall pay to hospitals for items
9 provided and services delivered in Vermont. The purposes of reference-based
10 pricing are to contain costs and to move health care professionals toward a site-
11 neutral pricing structure while also allowing the Board to differentiate prices
12 among health care professionals based on factors such as demographics,
13 population health in a given hospital service area, payer mix, acuity, social risk
14 factors, and a specific health care professional’s role in Vermont’s health care
15 system. The Board shall consult with health insurers, hospitals, other health
16 care professionals as applicable, the Office of the Health Care Advocate, and
17 the Agency of Human Services on ways to approach reference-based pricing in
18 an effort to achieve all-payer alignment on design and implementation of the
19 program.

20 (2)(A) Reference-based prices established pursuant to this subsection (e)
21 shall be based on a percentage of the Medicare reimbursement rate for the

1 same or a similar item or service, provided that after the Board establishes
2 initial prices that are referenced to Medicare, the Board may opt to update the
3 prices in the future based on a reasonable rate of growth that is separate from
4 Medicare rates, such as the Medicare Economic Index measure of inflation, in
5 order to provide predictability and consistency for health care professionals
6 and payers and to protect against federal funding pressures that may impact
7 Medicare rates in an unpredictable manner.

8 (B) In establishing reference-based prices pursuant to this subsection
9 (e), the Board shall consider the composition of the communities served by the
10 hospital, including the health of the population, demographic characteristics,
11 acuity, payer mix, labor costs, social risk factors, and other factors that may
12 affect the costs of providing care in the hospital service area.

13 (3)(A) The Board shall begin implementing reference-based pricing by
14 establishing the amounts that health insurers in this State shall pay to Vermont
15 hospitals for items provided and services delivered to individuals covered by
16 the health insurer’s plans as soon as practicable but not later than hospital
17 fiscal year 2027.

18 (B) The Board shall implement reference-based pricing in a manner
19 that does not allow hospitals to charge or collect from patients any amount in
20 excess of the reference-based amount established by the Board for the item
21 provided or service delivered.

1 (C) The Board, in collaboration with the Department of Financial
2 Regulation, shall monitor the implementation of reference-based pricing to
3 ensure that any decreased prices paid to hospitals result in commensurate
4 decreases in health insurance premiums. The Board shall post its findings
5 regarding the alignment between price decreases and premium decreases
6 annually on its website.

7 (4) The Board shall identify factors that would necessitate terminating
8 the use of reference-based pricing in one or more hospitals, such as a reduction
9 in access to or quality of care.

10 (5) The Agency of Human Services, in consultation with the Green
11 Mountain Care Board, may implement reference-based pricing for services
12 delivered outside a hospital, such as primary care services, and may increase or
13 decrease the percentage of Medicare or another benchmark as appropriate, first
14 to enhance access to primary care and later for alignment with the Statewide
15 Health Care Delivery Plan established pursuant to section 9403 of this title,
16 once established.

17 Sec. 4. 18 V.S.A. § 9454 is amended to read:

18 § 9454. HOSPITALS; DUTIES

19 (a) Hospitals shall file the following information at the time and place and

14 for Health, Choices for Care, and Support and Services at Home (SASH);

20 maximize hospital budget data standardization and allow the Board to make
21 direct comparisons of hospital expenses across the health care system.

1 (c) Hospitals shall adopt a fiscal year that shall begin on October 1.

2 Sec. 5. 18 V.S.A. § 9456 is amended to read:

11 connection with services provided to Medicaid beneficiaries are being charged
12 to non-Medicaid health benefit plans and other non-Medicaid payers;

13 ~~(9)~~(12) require each hospital to file an analysis that reflects a reduction
14 in net revenue needs from non-Medicaid payers equal to any anticipated
15 increase in Medicaid, Medicare, or another public health care program
16 reimbursements, and to any reduction in bad debt or charity care due to an
17 increase in the number of insured individuals;

18 ~~(10)~~(13) require each hospital to provide information on administrative
19 costs, as defined by the Board, including specific information on the amounts

2 State’s Health Information Exchange Network in accordance with the criteria

11 leadership, including variable payments and incentive plans, and the hospital’s
12 salary spread, including a comparison of median salaries to the medians of
13 northern New England states and a comparison of the base salaries and total
14 compensation for the hospital’s executive and clinic leadership with those of
15 the hospital’s lowest-paid employees who deliver health care services directly
16 to hospital patients; and

17 (17) consider the number of employees of the hospital whose duties are

15 to other components of health care as part of an integrated, holistic system of

9 across the State that balance quality, access, and cost containment. The Plan
