

DCF-FSD juvenile services staff provide support and supervision to the at-risk cases, specifically youth deemed to be beyond parental control, youth experiencing truancy, as well as youth engaging in delinquent behaviors, and those who have youthful offender status. All of our district offices have dedicated staff to provide support to the at-risk, truant qw4a and justice-involved youth. When there are capacity concerns in the ongoing (CPS) unit these staff provide support and take on those cases as well. It is important to show the capacity of the staff dedicated to providing support to the justice-involved youth and that includes providing the caseload numbers for all the youth they are mandated to serve as that impacts their ability to support the justice-involved youth. The chart below shows the caseload for juvenile services staff for calendar years 2020-2024.

Data Source: AHS Report Catalog; Youth Justice Population Report Data Note: Data is a deduplicated count of youth.

Should RTA be fully implemented on April 1, 2025, the non-Big 11 offenses that remain in Criminal Division for youth who were 19 years old at the time of the offense will no longer have jurisdiction in that court. The cases will need to be transferred to the Family Division for processing. The numbers do not include cases that have been provided alternative opportunities, such as Diversion or direct referral to BARJ, as they would not qualify for transfer given they have been disposed. As of January 15, 2025, the Criminal Division had 97 misdemeanor cases and 55 non-Big 11 felony cases, a total of 152 cases that will transfer to Family Division on April 1, 2025, if they are not resolved prior and RTA is implemented on April 1, 2025. The breakdown of this data by county is below.
