

Mr. Drescher's testimony that he was "just doing his job" is not good enough. That has been the excuse of war criminals: 'just following orders'. He was involved in questionably legal Trump-directed prosecution of individuals. If he had the integrity that we need on our high court he would have resigned his post, rather than manage these vindictive prosecutions.

We need a much higher level of integrity for our Supreme Court. **Please DO NOT confirm him!**

It is important that Vermont stand up to Trump's illegal actions!
