

To Members of the Senate Judiciary Committee:

Thank you for the hard work that you're doing as you consider candidates to fill the two open positions on the Vermont Supreme Court. I am very concerned about the consideration of M. Drescher. I am strongly opposed to his approval due to his work on behalf of Trump's administration over the past year. His position of "just doing my job" is inexcusable, in my opinion...and I believe that with time, this is the excuse that we'll hear from all of Trump's minions as they are brought to accountability for their actions. It is not acceptable for anyone serving in such an important position on the highest Court in our State.

Please vote against this candidate.
