NOTE: This contents of this document are subject to change. This document was drafted for discussion purposes only.

NOTE: Data provided by the Vermont Judiciary.

# **Relevant Definitions**

- <u>Charge</u>: a charge is each allegation of the commission of a crime. Crimes are categorized at the most general level as felonies and misdemeanors.
- Felony: a crime punishable by two or more years in jail.
- <u>Misdemeanor</u>: A crime punishable by less than two years in jail.
- Docket or docket number: The court assigns a docket number to every case filed. A case can include a single charge or multiple charges. <u>or "CASE"</u>
- Assigned Prosecutor: The judiciary dataset only includes the lead prosecutor. If the SAO and AGO both have attorneys prosecuting a case, only the lead attorney will be displayed in the data.
- NOTE: <u>Pending "criminal" data does not include</u> cases in the Family Division (*CHINS, ERPOS, Juvenile Delinquency, Youthful Offender*) or the Civil Division (e.g., *PCRs*), assigned to SAS ATTYS. Pending criminal data also does not include appeals or investigation-related workload. As such, a better metric of workload must include "all" case types, including "family" and "civil" cases currently pending.

- SAS believes that the best metric for the current workload and caseload is the number of "pending" cases – rather than the differentiation between "active" and "inactive."
- <u>Active</u>: While the judiciary does not offer a specific definition, an active case is one that is on a "routine" path towards trial disposition and, if a conviction occurs, towards sentencing: Post-arraignment cases; Active Pre-Trial and Ready for Trial; Active Under Advisement; Active Ready for Sentence.
- <u>Inactive</u>: "Inactive" is a misnomer because it includes any status that is something other than an active case. It could include:
  - Cases in treatment court.
  - Cases pending a court-ordered evaluation for competence to stand trial.
  - Cases with an order of hospitalization (following a determination the defendant is not competent to stand trial or was not guilty by reason of insanity) or order of non-hospitalization.
  - Cases on arrest warrant status.
  - Diversion / Tamarack Cases that are pending.
  - VOPs (Probation Cases).
  - Arrest Warrants. ARREST WARRANTS.
  - · Pre-arraignment (docketed but not yet arraigned).
  - · Other post-judgment cases still being litigated.

#### Criminal Case Disposition Guidelines

- Misdemeanors
   Track I (standard track): 120 days
   Track II (complex track): 180 days
- Felonies and Other Misdemeanors: Track I (standard track): 180 days Track II (complex track): 365 days Track III (super complex track): 455 days
- Administrative Directive 24, dated November 23, 2010, provided guidelines for case disposition but not definitive deadlines or an actionable date for bringing of the case to trial.
- The guideline ranges themselves are, however, largely aspirational assuming disposition of misdemeanors in 120-days and complex felonies within 15-months. The Supreme Court may be interested in revising this in lieu of a legislative solution – and appears to
- <u>Clearance Rate</u>: Measurement of cases resolved against cases filed. (e.g., in a month where 100 cases are filed, resolving 100 cases would result in a 100% clearance rate.)

# <u>AO 5</u>

#### STATE OF VERMONT VERMONT SUPREME COURT DECEMBER TERM, 2024

#### Order Abrogating Administrative Order No. 5

#### PROMPT DISPOSITION OF CRIMINAL CASES

Pursuant to the Vermont Constitution, Chapter II, § 30, it is hereby ordered:

 That Administrative Order No. 5, promulgated January 10, 1972, and subsequently amended, be abrogated.

#### Reporter's Notes-2024 Amendment

Administrative Order No. 5 is abrogated in its entirety.

This order was promulgated in 1972 to promote the prompt and efficient disposition of criminal causes. The order established priorities for scheduling of criminal cases and set time periods within which a trial should proceed depending on whether a defendant was in custody and absent exceptional circumstances. The time frames are discretionary, however, and do not bind trial courts or entitle defendants to dismissal for noncompliance. See <u>State v. Snide</u>, 144 Vt. 436, 441, 479 A.2d 139, 143 (1984) (explaining that A.O. 5 "is entirely discretionary, and it is for the trial court to determine, in each case, whether dismissal shall result"). Moreover, the time frames are not realistic, particularly for complex felony cases. <u>State v. Reynolds</u>, 2014 VT 16, ¶ 13, 196 Vt. 113, 95 A.3d 973 (explaining that A.O. 5 "proved to set impossibly short deadlines for the pretrial preparation of serious felony cases").

In addition, the time periods are confusing in that they conflict with the disposition guidelines for criminal cases, which are separately established in Administrative Directive 24. Therefore, A.O. 5 is abrogated.

2. That this Order be effective immediately. The Reporter's Notes are advisory.

3. That the Chief Justice is authorized to report these amendments to the General Assembly in accordance with the provisions of 12 V.S.A. § 1, as amended.

Dated in Chambers at Montpelier, Vermont, this 16th day of December, 2024.

Paul L. Reiber, Chief Justice

Harold E. Eaton, Jr., Associate Justice

#### Signed by the Vermont Supreme Court

Karen R. Carroll, Associate Justice

### **SAS Attorney Caseload Average**

- Current 12/10/24 SAS Attorney Caseload Average. 14 SAs plus 58 DSAs = 72 SAS Attorneys. As of December 10, 2024, there were 23,134 pending cases.
- 23,134 divided by 72 SAS Attorneys = 321 per SAS Attorney (300-400 cases).
- Victim Advocate Caseload = 600 per VA.

See Northwestern University School of Law. "THE STATE (NEVER) RESTS: HOW EXCESSIVE PROSECUTORIAL CASELOADS HARM CRIMINAL DEFENDANTS." 2011 (emphasis added); see also <u>Prosecutor Workload Report (centerforjusticeresearch.org)</u> ("[P]rosecutors <u>should not handle more than 150 felonies or 400 misdemeanors</u> per year." Vermont SAS prosecutors often handle much more on both fronts and handle more than criminal cases (Criminal -Felonies, Fish and Wildlife, and Misdemeanors) (Family-CHINS, Juvenile Delinquencies, YO cases, and ERPOS) (Appeals) (Civil-PCRs). SAS also handles the majority of criminal division appeals and a number of family division appeals.)

### Vermont Crime Data

- 2012-2024 Context.
  - In 2022 Vermont saw a 185% increase in firearm-related crime. Vermont's homicide rate in 2022 was about 3.9 per 100,000, "compared with Los Angeles at 3.1 and New York City at 2.3 per 100,000... Burlington's rate was 11.2 per 100,000, exceeding the rates in Philadelphia, Phoenix and Springfield, Massachusetts...."
  - FBI Data from 2012-2022 shows an increase in "Violent Crime" in Vermont across multiple categories. SAS has experienced this increase in violent crime and believes that the trend has continued through 2023 and 2024.
    - In December 2023, Representative Martin LaLonde presented FBI data showing that "Violent Crime" in Vermont was on the rise over the past decade:
      - 56% increase in violent crime between 2012 and 2022
      - 65% increase in aggravated assault between 2012 and 2022
      - 166% increase in homicide7
      - 6% increase in sexual assault between 2012 and 2022
      - 27% increase in motor vehicle theft between 2012 and 2022).
  - Recent crime data reported by the Department of Public Safety and the National Incident-Based Reporting System (NIBRS) shows a continuation of the 2012-2022 Vermont crime data trajectory.
    - Reports of certain property crimes in Vermont, including thefts from motor vehicles, thefts of motor vehicles, identify theft, and shoplifting have each more than doubled from 2018 to 2023. Reports of shoplifting alone have increased 40% from 2022 to 2023 (from 2416 reports to 3388 reports).
    - Reports of aggravated assaults in Vermont have increased 42% between 2018 and 2023.
    - According to NIBRS data, 2024 will be the third consecutive year with more than 20 homicide victims in Vermont.

See Vermont, usually one of the safest states, saw a 185% rise in firearms homicides last year | AP News. AP, December 15, 2023 ("Overall the country had a 6% decrease in national firearms homicides between 2021 and 2022, but Vermont saw a 185% jump, according to Vermont State Police Capt. Shawn Loan. "So we went from seven firearms deaths in 2021 to 20 in 2022," he said, adding that he did not have the current total for this year. About half of the homicides in Vermont involved a firearm between 2017 and 2021, he said. Last year that rose to 86%, Loan said). **Odyssey / Court Systems** 

#### SAS Administrative Assistants & Support Secretaries are Integral to Our Mission

- Play a role in every aspect of case progression from initial intake to case disposition.
- Must be proficient and rely upon multiple case management or filing systems JustWare, Odyssey eFile, Valcour, and other modern methodologies for transfer of data from law enforcement.
- Administrative and support staff are on the front line of emergencies and critical filings frequently only hours to prepare emergency cases for court (homicides/attempted homicides, complex domestic assaults, etc.)
- Digital era has <u>increased</u> workload paperless case management and filing means more preparation time – formatting and redacting information, etc. Disparate case management systems between all parties generates significant inefficiencies in processes.
- Obligations to support reception, case preparation, on-going discovery, attorney calendars, and other office events requires significant knowledge, experience within the system, and flexibility to meet <u>our public safety mission</u> – many matters cannot wait.
