

1 TO THE HONORABLE SENATE:

2 The Committee on Natural Resources and Energy to which was referred
3 Senate Bill No. 29 entitled “An act relating to establishing the Chloride
4 Contamination Reduction Program at the Agency of Natural Resources”
5 respectfully reports that it has considered the same and recommends that the
6 bill be amended by striking out all after the enacting clause and inserting in
7 lieu thereof the following:

8 Sec. 1. 10 V.S.A. chapter 47, subchapter 3A is added to read:

9 Subchapter 3A. Chloride Contamination Reduction Program

10 § 1351. DEFINITIONS

11 As used in this subchapter:

12 (1) “Apply salt” or “application of salt” means to apply salt or a salt
13 alternative to roadways, parking lots, or sidewalks for the purpose of winter
14 maintenance or for summer dust control. “Apply salt” or “application of salt”
15 does not mean the application of salt to a transportation infrastructure
16 construction project.

17 (2) “Commercial salt applicator” means any individual who for
18 compensation applies or supervises others who apply salt but does not include
19 municipal or State employees.

1 (3) “Municipal salt applicator” means any individual who applies or
2 supervises others who apply salt in the applicator’s capacity as an employee or
3 agent of a town or a municipality but does not include State employees.

4 (4) “Salt” means sodium chloride, calcium chloride, magnesium
5 chloride, or any other substance containing chloride used for the purpose of
6 deicing or anti-icing.

7 (5) “Salt alternative” means any substance not containing chloride used
8 for the purpose of deicing or anti-icing.

9 (6) “Secretary” means the Secretary of Natural Resources.

10 (7) “Transportation infrastructure construction project” means a project
11 that involves the construction of roadways, parking lots, sidewalks, or other
12 construction activities at transportation facilities or within transportation
13 rights-of-way.

14 § 1352. CHLORIDE CONTAMINATION REDUCTION PROGRAM

15 (a) The Secretary of Natural Resources, after consultation with the
16 Secretary of Transportation and other states with similar chloride reduction
17 programs, shall establish the Chloride Contamination Reduction Program for
18 the education, training, and certification of commercial salt applicators and
19 municipal salt applicators in the State, including requirements for certification
20 of a master commercial salt applicator. The Secretary may elect to implement
21 the Program with State agency staff or through a competitively selected third-

1 party vendor, or some combination. The Program shall include best
2 management practices for application of salt or salt alternatives by commercial
3 salt applicators and municipal salt applicators, but the Program shall
4 specifically exclude salt applications related to transportation infrastructure
5 construction projects.

6 (b) The Program may be based on current best management practices. The
7 best management practices shall:

8 (1) establish measures or techniques to increase efficiency in the
9 application of salt or salt alternatives so that the least amount of salt or salt
10 alternatives are used while maintaining safe conditions for pedestrians and
11 motor vehicles on traveled surfaces;

12 (2) establish standards for when and how salt and salt alternatives are
13 applied in order to prevent salt or salt alternatives from entering waters of the
14 State, including:

15 (A) salt alternatives that are cost-effective and less harmful to water
16 quality while maintaining safe conditions for pedestrians and motor vehicles
17 on traveled surfaces; and

18 (B) whether and how to implement equipment to calibrate, monitor,
19 or meter application of salt or salt alternatives;

20 (3) establish record-keeping requirements for commercial salt
21 applicators and municipal salt applicators, including records of training and

1 records describing the type and rate of application of salt or salt alternatives,
2 the dates of use, weather conditions requiring use of salt or salt alternatives,
3 and required submission to the Agency of Natural Resources;

4 (4) create and circulate a model form for record keeping and reporting
5 of information required under this section;

6 (5) establish requirements for application for certification under this
7 subchapter, including frequency of training, manner of training, and the form
8 and manner of application;

9 (6) establish a testing requirement for applicators to complete prior to
10 receiving an initial certification under the Program; and

11 (7) establish other requirements deemed necessary by the Secretary to
12 achieve the purposes of the Program.

13 (c)(1) A commercial salt applicator or municipal salt applicator may apply
14 annually to the Secretary to be approved as a State-certified salt applicator.

15 (2) A business that employs multiple commercial salt applicators may
16 apply to the Secretary for certification of the business owner or other
17 designated employee as a master commercial salt applicator. A certified
18 master commercial salt applicator shall ensure that all persons employed by the
19 business to apply salt or salt alternatives are trained to comply with the best
20 management practices established under subsection (b) of this section.

21 (d) The Secretary of Natural Resources shall:

- 1 (1) determine the amount of salt annually imported into the State;
- 2 (2) estimate the average amount of salt applied annually for the years
- 3 2015 through 2025 from:
- 4 (A) each winter road management season between October and
- 5 April; and
- 6 (B) salt solutions applied by the State, municipalities, and private
- 7 contractors for summer dust suppression;
- 8 (3) determine the amount of salt annually applied in the State using a
- 9 public accounting method established by the Secretary to assess salt purchases
- 10 and applications within Vermont;
- 11 (4) develop salt reduction targets to guide the Agency of Natural
- 12 Resources in measurably reducing chloride levels in surface waters and
- 13 groundwater; and
- 14 (5) annually report to the Senate Committees on Natural Resources and
- 15 Energy and on Transportation and the House Committees on Environment and
- 16 on Transportation on or before January 15 the findings as an assessment of the
- 17 nature, scope, and magnitude of associated impacts of salt on surface waters
- 18 and groundwater, public and private lands, property, health, and infrastructure
- 19 in the State of Vermont.

1 § 1353. SALT APPLICATION; LIMITED LIABILITY; PRESUMPTION OF
2 COMPLIANCE; ENFORCEMENT

3 (a)(1) Except as provided in subdivision (2) of this subsection, a certified
4 commercial salt applicator; a certified municipal salt applicator; or an owner,
5 occupant, or lessee of real property maintained by a certified commercial salt
6 applicator or certified municipal salt applicator shall not be liable for damages
7 arising from hazards on real property owned, occupied, maintained, or
8 operated by that person when:

9 (A) the hazards are caused solely by snow or ice; and

10 (B) any failure or delay in removing or mitigating the hazards is the
11 result of the certified commercial salt applicator or certified municipal salt
12 applicator's implementation of the best management practices established
13 under section 1352 of this title for application of salt or salt alternatives.

14 (2) The protection from liability provided under subdivision (1) of this
15 subsection shall not apply when the damages are due to gross negligence or
16 reckless disregard of the hazard.

17 (3) All certified commercial salt applicators and certified municipal salt
18 applicators shall be presumed to be acting pursuant to the best management
19 practices for application of salt or salt alternatives in the absence of proof to
20 the contrary.

1 (b) A certified commercial salt applicator, a commercial salt applicator
2 employed by a certified master commercial salt applicator, or a certified
3 municipal salt applicator is entitled to a rebuttable presumption that they are in
4 compliance with the requirements of sections 1263 and 1264 of this title when
5 applying salt or salt alternatives according to the best management practices
6 established under section 1352 of this title. The rebuttable presumption under
7 this subsection shall not apply to requirements of a total maximum daily load
8 plan or the requirements of a municipal separate storm sewer system permit.

9 (c) The Secretary may revoke a certification issued under this subchapter
10 after notice and opportunity for a hearing for a violation of the requirements of
11 this subchapter, the rules of this subchapter, or the provisions of a certification
12 issued under this subchapter.

13 (d) In order to receive the liability protection provided in subsection (a) of
14 this section, a commercial salt applicator; a municipal salt applicator; or an
15 owner, an occupant, or a lessee of land shall keep a record describing its winter
16 road, parking lot, and property maintenance practices. The record shall include
17 the type and rate of application of deicing materials used, the dates of
18 treatment, and the weather conditions for each event requiring deicing. Such
19 records shall be retained by the applicator for a period of three years.

1 § 1354. STORAGE AND DISPOSAL OF SALT

2 The Secretary of Natural Resources shall:

3 (1) require that all salt storage facilities owned by private contractors,
4 the State, municipalities, or other governmental entity be mapped on the
5 Agency of Natural Resources' Natural Resources Atlas, and the types of
6 materials stored and storage practices at each facility be identified;

7 (2) establish best management practices and an education program for
8 the management of State-, town-, and privately owned salt storage facilities
9 and snow disposal practices to prevent runoff to surface and groundwater;

10 (3) require that all State-, municipal-, and privately owned facilities for
11 the storage of salt or salt and sand mixtures that are within 100 yards of a
12 surface water or drinking water source be under cover on or before 2030 and
13 all other facilities for the storage of salt and sand mixtures be under cover on or
14 before 2035;

15 (4) require that all State-, municipal-, and privately owned facilities for
16 the storage of sand that is not mixed with salt that are within 100 yards of a
17 surface water or drinking water source be managed to contain runoff on or
18 before 2030 and all other facilities for the storage of sand that is not mixed
19 with salt be managed to contain runoff on or before 2035; and

20 (5) identify funds or funding sources that may be used to grant funds to
21 facilities subject to the cover requirements of this section and that would allow

1 priority for grant awards to be provided to salt shed projects in municipalities
2 with fewer than 1,200 residents.

3 Sec. 2. IMPLEMENTATION; FEE REPORT

4 (a) The Secretary of Natural Resources shall adopt the best management
5 practices for commercial application of salt or salt alternatives required under
6 10 V.S.A. § 1352 by procedure or by rulemaking authority under 10 V.S.A.
7 chapter 47. The Secretary of Natural Resources shall adopt any procedure or
8 rule establishing the best management practices for commercial and municipal
9 application of salt or salt alternatives on or before November 1, 2026 for initial
10 use beginning on January 1, 2027.

11 (b) On or before January 15, 2026, the Secretary of Natural Resources shall
12 submit to the Senate Committees on Natural Resources and Energy and on
13 Finance and the House Committees on Environment and on Ways and Means a
14 recommended fee to charge for certification of commercial applicators under
15 10 V.S.A. chapter 47, subchapter 3A.

16 Sec. 3. ANR ENHANCED MONITORING OF CHLORIDE LEVELS IN
17 SURFACE WATERS

18 When a State water or water segment is identified as contaminated by
19 chloride levels that exceed the chronic or acute standards established by the
20 U.S. Environmental Protection Agency (EPA), the Secretary of Natural
21 Resources shall begin regular monitoring of the chloride levels in that water or

1 water segment and investigate potential acute and diffuse contamination
2 sources, such as impervious surfaces. If the source that is causing chloride
3 contamination levels that exceed EPA chronic or acute standards is found, the
4 Secretary of Natural Resources shall require monitoring at the physical
5 discharge point into a water of the State or into a hydrological connection to a
6 water of the State.

7 Sec. 4. AUTHORIZED POSITION; APPROPRIATIONS

8 (a) In addition to other positions authorized at the Agency of Natural
9 Resources in fiscal year 2026, a permanent classified position is authorized for
10 the purpose of administering the Chloride Contamination Reduction Program
11 in 10 V.S.A. chapter 47, subchapter 3A.

12 (b) In addition to any other funds appropriated to the Agency of Natural
13 Resources in fiscal year 2026, \$125,000.00 is appropriated from the General
14 Fund to the Agency of Natural Resources for the permanent classified position
15 authorized under subsection (a) of this section.

16 (c) It is the intention of the General Assembly that the appropriation in
17 subsection (b) of this section shall be made annually for the identified
18 purposes.

19 Sec. 5. EFFECTIVE DATE

20 This act shall take effect on passage.
