

To the Chair; Richard Westman and Senate Transportation Committee

Chair: Westman

I appreciate speaking with the other day in reference to S.4 and about if you would have any consternation; in have any more witness testimony?

Two things I never mentioned in my Travis Blodgett public comments to S.4
April 29,2025

After all the stress and costs of the issue with Moretown legal Trail 17 up until,2019.

In February 2019 I had a heart attack almost coast me my life. I almost didn't go to the hospital, because I couldn't afford insurance at that time.

My parents Calvin&Nancy Blodgett's garage apartment Burned, it was a completely loss. Calvin lost all of his tools he needed to continue working. Calvin Blodgett still has to work to this day at the age of 78

The furnace was inspected and worked on by a plumbing/heating company 6 days before the fire happened.

A furnace problem caused a fire and explosion that demolished a garage shop with a second-floor apartment three show cars in Moretown.

The fire was reported Saturday 2019 Dec. 21, at 4:50 p.m. The property is owned by Calvin and Nancy Blodgett of Moretown.

S.4 could address these issues with Legal Trail's V.S.A 19 as well that may have gone unnoticed.

S.4 should not allow the authority of selectboards to write their own policy's for Legal Trails

S.4 Towns Trail policies should not have the authority to; supersede V.S.A title 19 state statute.

Town Trail policy should not have the authority of the taking peoples land for; (recreational use and to do maintenance of legal Trails/ previously was a designated as highways) that have been abandoned by the Towns & STATE OF VERMONT of maintenance.

In references to Calvin & Nancy Blodgett vs Moretown

That Legal Trail 17 was never maintained by Moretown as well as The state of Vermont for an over a CENTURY.

See attachments: Vtrans past maps and mileage records of T-#49 predecessor to Legal Trail #17 shown in two different areas and mileages added together(in completely deferent corners of Moretown) though out history.

Please reconsider my request for a witness testimony. There's more to these Legal Trails than recreational use and maintenance.

P.S my heart didn't recover most of my heart doesn't working .

Thank you

Travis Blodgett
