

Amtrak is Delivering for America

Record Ridership & Revenue • Rapid Investment • U.S. Manufacturing Innovation

After back-to-back record ridership, Amtrak is on track for another record year in 2026!

We are meeting the moment by continuing to grow ridership and revenue, improving customer satisfaction and making historic investments in America's trains, stations, bridges, tunnels, service and more. A continued investment in Amtrak means an investment in American businesses and communities. As Congress considers surface transportation reauthorization, let's keep building on our success!

Amtrak's Integrated Network Connects America Efficiently

Created by Congress, Amtrak is America's Railroad. Our network connects travelers to more places with easy transfers between routes and other transportation modes. On the Northeast Corridor, we run passenger trains and own most of the tracks, creating critical efficiencies that allow us to move more trains and advance key projects at the same time. Amtrak's integration delivers strong returns for America, and we're on track for profitability for our passenger operations by 2028!

1,100+ New Train Cars and Locomotives

- **NextGen Acela** high speed trains continue to roll out in 2026, with a total of 28 new trains.
- **Airo fleet launching in 2026**, manufactured by nearly 100 suppliers in 31 states.
- **New Long Distance** trains in active procurement.
- **Upgrading 24 Amtrak Level I and Level II maintenance facilities** across the country to support new fleet.

More Service Across America

- **Amtrak Mardi Gras** continues to serve Gulf Coast riders at a record rate, serving over 70,000 passengers so far.
- **Borealis reaches 350K+ riders**, a 227% increase in customers between Twin Cities, Milwaukee, and Chicago.
- **More frequencies** on *Pacific Surfliner*, *Capitol Corridor*, and *Winter Park Express*.

Modern Stations and Infrastructure

- **Major station upgrades** in Philadelphia, Chicago, Baltimore, New York and DC.
- **153 ADA station upgrades completed** to date with 59 set for completion in 2026.
- **Portal North Bridge** entering final phase of construction and opening for service this spring.
- **East River Tunnel line 2 completion** this summer.

The Amtrak Network

Record Ridership & Revenue • Rapid Investment • U.S. Manufacturing Innovation

300 trains a day over **21,000+ route miles** in **46 states**, DC & Canada
