Governor's Letter

“May 13, 2024

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives
115 State Street
Montpelier, VT 05633

Dear Ms. Wrask:

Today I am allowing H.649, *An act relating to the Vermont Truth and Reconciliation Commission*, to become law without my signature.

I am concerned that although the Truth and Reconciliation Commission is a taxpayer-funded governmental body, with a budget of over \$1 million in Fiscal Year 2025, this bill carves out a special exception from the Open Meetings Law for Commission deliberations. This means there will be no visibility into the Commission’s consideration of evidence or testimony, or discussions of the reasons for or against the Commission’s acts or decisions.

As the Vermont Supreme Court has noted, the overriding goal of open government “is nothing less than foundational to our republic. In the words of John Adams:

Liberty cannot be preserved without a general knowledge among the people, who have a right ... and a desire to know; but besides this, they have a right, an independent right, an indisputable, unalienable, indefeasible, divine right to that most dreaded and envied kind of knowledge, I mean of the characters and conduct of their rulers.”
Hum. Rts. Def. Ctr. v. Correct Care Sols., LLC, 2021 VT 63 (2021).

I understand the politics are sensitive, but knowing what the government is doing and how it’s doing it is fundamental to a healthy, functioning democracy regardless of the politics.

Sincerely,

Philip B. Scott

H. 706 An act relating to banning the use of neonicotinoid pesticides

Governor's Veto Letter

“May 20, 2024

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives
115 State Street
Montpelier, VT 05633

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I'm returning H.706, *An act relating to banning the use of neonicotinoid pesticides*, without my signature because of my objections described herein.

Pollinators are essential to growing food and maintaining a healthy, thriving ecosystem. The same is true of farmers, who are also critical contributors to our economy, but altogether, this legislation is more anti-farmer than it is pro-pollinator.

It's important to note, the honeybee population has grown, while the use of neonics has persisted. In fact, the USDA Census for 2017-2022 shows Vermont's honeybee population has grown about 30 percent. Additionally, the science is not conclusive on whether this ban will achieve the desired results, but the bill has the potential to produce severe unintended environmental and economic consequences—particularly for Vermont's dairy farmers.

Although neonics are approved by the U.S. Environmental Protection Agency and used on a variety of crops, this bill would ban neonic-treated seeds of corn, soybean, and all other cereal grains (wheat, rice, oats, etc.) and it bans outdoor uses on soybeans, cereal grains, ornamental plants, any plant in bloom and certain vegetables after bloom.

To put the impacts of this bill into context, Vermont grows about 90,000 acres of corn, while the U.S. grows 90 million acres of corn, and almost all corn seed sold in the U.S. is treated with neonics. This would put Vermont farmers at a significant disadvantage.

This is especially concerning given the fact Vermont is struggling to keep dairy farmers, and many more have been put at risk through higher taxes and energy prices, crop losses associated with last year's spring frost, and summer and winter floods.

This bill unfairly targets dairy farmers reliant on corn crops and will harm farmers without achieving its goals for pollinators. For these reasons I cannot sign it into law.

Rather than eliminating an important EPA-approved tool, we should continue to closely monitor and study the issues and science to protect both family farms – and the food they produce – and pollinators.

Sincerely,

Philip B. Scott
Governor”

“May 23, 2024

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives
115 State Street
Montpelier, VT 05633

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I'm returning H.289, *An act relating to the Renewable Energy Standard*, without my signature because of my objections described herein.

I don't believe there is any debate that H.289 will raise Vermonters' utility rates, likely by hundreds of millions of dollars. And while that in itself is reason enough to earn a veto, it is even more frustrating when you consider our Department of Public Service proposed to the Legislature a much stronger plan at a fraction of the cost.

Their proposal was crafted after 18 months of engagement with Vermonters about what *they* want their energy policy to look like. It would get us to where we all want to go faster, more affordably and more equitably than H.289.

For the reasons stated above, and factoring in all the other taxes, fees and higher costs the Legislature has passed over the last two years, I simply cannot allow this bill to go into law.

With a better alternative to this bill available, I sincerely hope that the Legislature will think about Vermonters and the cost of living, and sustain this veto.

Governor's Veto Letter

"May 30, 2024

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives
115 State Street
Montpelier, VT 05633

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I'm returning H.72, *An act relating to harm-reduction criminal justice response to drug use*, without my signature because of my objections described herein.

Drug addiction is something we must continuously address, and this important work is never done. That's why year after year, I have prioritized expansion and enhancement of prevention, enforcement, treatment, and long-term recovery services. I have been urging the Legislature to strengthen the law enforcement response to the increasingly toxic drug stream entering our state. And I feel for every family grieving an overdose death.

While these sites are well-intentioned, this costly experiment will divert financial resources from proven prevention, treatment and recovery strategies, as well as harm reduction initiatives that facilitate entry into treatment rather than continued use. While it may consolidate the widespread drug use in Burlington into a smaller area within the city, it will come at the expense of the

treatment and recovery needs of other communities, for whom such a model will not work.

Vermont's existing overdose prevention strategies – including widespread Narcan distribution, fentanyl testing strips, needle exchanges, enhanced prevention, treatment and recovery through local coalitions are resulting in some positive trends in relation to overdose deaths. And paired with increased enforcement, and the ability to invest Opioid Settlement funds in additional strategies like drug testing, naloxone vending machines, contingency management and expanded outreach, I'm hopeful we will continue to see fewer and fewer overdose deaths.

Sincerely,

Philip B. Scott
Governor"

While I understand the desire to help those, particularly youth, who need second, third and even fourth chances to get their lives on track, H.645 is not workable because it is not funded.

The bottom line is this bill expands the responsibilities of the Office of the Attorney General, which will require additional resources, and yet the new work is not funded.

There is no guarantee we will have the taxpayer money needed to fund it next year. For this reason, I'm returning this bill without my signature.

H. 887 An act relating to homestead property tax yields, nonhomestead rates, and policy changes to education finance and taxation

Governor's Veto Letter

“June 6, 2024

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives
115 State Street
Montpelier, VT 05633

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I'm vetoing H.887, *An act relating to homestead property tax yields, nonhomestead rates, and policy changes to education finance and taxation*, because of my objections described herein.

Vermonters cannot afford a double-digit property tax increase. Especially while facing a historic eight-percent property tax increase last year, a 20%

increase in DMV fees, a new payroll tax taking effect July 1, increased fuel costs to heat homes and businesses from the Clean Heat Standard, and increased electric costs if my veto of the Renewable Energy Standard is not sustained. All on top of several years of inflation – the most regressive tax of all – driving up the cost of household essentials like food, clothing and services faster than paychecks are growing.

We must provide property tax relief now. This can't wait for another study before implementing cost containment strategies. We must also reform our education funding formula to ensure sustainable spending growth and equitable opportunities, and prioritize funding educational opportunities that improve outcomes by reinvesting in the strategies that best serve kids over maintaining the status quo.

We can achieve each of these goals this year if legislators will work with me.

Sincerely,

Philip B. Scott

The Governor has informed the Senate that on the 6th day of May, he approved and signed bills originating in the Senate of the following titles:

S. 109. An act relating to Medicaid coverage for doula services.

S. 187. An act relating to student application of sunscreen.

S. 199. An act relating to mergers and governance of communications union districts.

The Governor has informed the Senate that on the 23rd day of May, he approved and signed bills originating in the Senate of the following titles:

S. 120. An act relating to postsecondary schools and sexual misconduct protections.

S. 189. An act relating to mental health response service guidelines and the safety of social service and home health providers.

S. 196. An act relating to the types of evidence permitted in weight of the evidence hearings.

The Governor has informed the Senate that on the 28th day of May, he approved and signed bills originating in the Senate of the following titles:

S. 159. An act relating to the County and Regional Governance Study Committee.

S. 183. An act relating to reenvisioning the Agency of Human Services.

S. 246. An act relating to amending the Vermont basic needs budget and livable wage.

The Governor has informed the Senate that on the 28th day of May, he did not approve and *allowed to become law without his signature* a bill originating in the Senate of the following title:

S. 209. An act relating to prohibiting unserialized firearms and unserialized firearms frames and receivers.

The text of the communication to the Senate from His Excellency, the Governor, setting forth his reasons for refusing to sign and *allowing to become law without his signature*, **Senate Bill No. 209** is as follows:

May 28, 2024

The Honorable John Bloomer
Secretary of the Senate
115 State Street
Montpelier, VT 05633

Dear Secretary Bloomer:

Today I'm allowing S.209, *An act relating to prohibiting unserialized firearms and unserialized firearms frames and receivers*, to become law without my signature.

As a public safety measure, I agree firearms should be serialized, which is why I'm allowing this bill to become law despite some concerns about its practicality and impact.

Over the last decade, as anti-policing policies increased and criminal accountability has steadily decreased, violent crime has grown in Vermont. This is why I believe we should instead focus on measures that will reverse these trends over those, like S.209, that are unlikely to have any measurable impact on violent crime.

In addition to my concerns about this bill's effectiveness, I would have preferred the Legislature not criminalize mere possession when there is no evidence of criminal intent. I also strongly believe the Legislature should reinstate the gun show exemption to the 3-day waiting period, which was supported by the Senate this session, and I hope the Legislature will revisit this next session. The 3-day waiting period was enacted to prevent individuals from impulsively purchasing a weapon to take their own life, and the evidence does not support that these types of purchases would happen at a gun show.

I appreciate, however, that legislators found some middle ground and removed the 3-day waiting period for a firearm owner seeking to have a firearm serialized. The waiting period, which like gun shows, made no sense in this context and would have deterred compliance.

Again, while my concerns on the practical impacts and enforceability keep me from signing this bill, I'm allowing it to go into law because I understand the fears behind access to untraceable firearms and respect the effort to tailor the scope and exceptions to limit impact for law abiding citizens.

Sincerely,

Philip B. Scott
Governor

The Governor has informed the Senate that on the 28th day of May, he did not approve and *allowed to become law without his signature* a bill originating in the Senate of the following title:

S. 102. An act relating to expanding employment protections and collective bargaining rights.

The text of the communication to the Senate from His Excellency, the Governor, setting forth his reasons for refusing to sign and *allowing to become law without his signature*, **Senate Bill No. 102**, is as follows:

May 28, 2024

The Honorable John Bloomer
Secretary of the Vermont State Senate
115 State Street
Montpelier, VT 05633

Dear Mr. Bloomer:

I'm allowing S.102, *An act relating to expanding employment protections and collective bargaining rights*, to become law without my signature. One concern with the bill is the potential to adversely impact the employer-employee relationship by limiting an employer's ability to communicate their point of view on a range of issues, including the advantages and disadvantages of unionization.

Further, the "card check" provision of S.102 will affect non-unionized employees in public school districts, State and municipal government, other governmental subdivision entities and potentially domestic workers, which could lead to higher municipal and property taxes in the future.

I'm also concerned that S.102 is a slippery slope to future disruptions in the employee-employer relationship in agriculture, domestic services and independent contracting as well as any local businesses and non-profits working solely within state lines.

Fortunately, the National Labor Relations Act (NLRA) will help limit the adverse impacts of this bill on the private sector, which is why I can allow S.102 to become law without my signature.

However, I urge the Legislature to monitor the economic, affordability and tax burden impacts of this policy as it moves forward.

Sincerely,

Philip B. Scott
Governor

S. 301. An act relating to miscellaneous agricultural subjects.

S. 305. An act relating to miscellaneous changes related to the Public Utility Commission.

S. 310. An act relating to natural disaster government response, recovery, and resiliency.

The Governor has informed the Senate that on the 30th day of May, he did not approve but *will become law without his signature* a bill originating in the Senate of the following title:

S. 213. An act relating to the regulation of wetlands, river corridor development, and dam safety.

The text of the communication to the Senate from His Excellency, the Governor, setting forth his reasons for refusing to sign, *but becoming law without his signature*, **Senate Bill No. 213**, is as follows:

May 30, 2024

The Honorable John Bloomer
Secretary of the Vermont State Senate
115 State Street
Montpelier, VT 05633

Dear Mr. Bloomer:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, S.213, *An act relating to the regulation of wetlands, river corridor development, and dam safety*, will become law without my signature.

S.213 is another example of this Legislature's practice of passing complex and significant policies without appropriate consideration of whether they can even be implemented.

Throughout the session, the Agency of Natural Resources' subject matter experts repeatedly told legislators that the work required in the bill is not achievable in the timeline it sets.

Specifically, S.213 envisions a major new river corridor regulatory program – which will impact development on roughly 45,000 parcels and 209,000 acres statewide – will be up and running in three years. And this is just one of the four complex initiatives this bill directs – including expanded regulation of wetlands and dam safety oversight. With the program anticipated to have a sizeable impact on communities and landowners, this pace is reckless.

However, we also told legislators throughout the session, we support the goals and agree this work needs to be done. Therefore, this bill will become law without my signature, but you can expect us to come back in January and propose a sensible timeline that is actually achievable and does this work correctly for the people of Vermont.

Sincerely,

Philip B. Scott
Governor

The Governor has informed the Senate that on the 30th day of May, he did not approve but *will become law without his signature* a bill originating in the Senate of the following title:

S. 259. An act relating to climate change cost recovery.

The text of the communication to the Senate from His Excellency, the Governor, setting forth his reasons for refusing to sign, *but becoming law without his signature*, **Senate Bill No. 259**, is as follows:

May 30, 2024

The Honorable John Bloomer
Secretary of the Vermont State Senate
115 State Street
Montpelier, VT 05633

Dear Mr. Bloomer:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, S.259, *An act relating to climate change cost recovery*, will become law without my signature.

Instead of coordinating with other states like New York and California, with far more abundant resources, Vermont – one of the least populated states with the lowest GDP in the country – has decided to recover costs associated with climate change on its own.

Taking on “Big Oil” should not be taken lightly. And with just \$600,000 appropriated by the Legislature to complete an analysis that will need to withstand intense legal scrutiny from a well-funded defense, we are not positioning ourselves for success.

I’m deeply concerned about both short- and long-term costs and outcomes. Just look at our unsuccessful nationally-focused cases on GMOs, campaign finance and pharmaceutical marketing practices. I’m also fearful that if we fail in this legal challenge, it will set precedent and hamper other states’ ability to recover damages.

Having said that, I understand the desire to seek funding to mitigate the effects of climate change that has hurt our state in so many ways. I also note Attorney General Clark and Treasurer Picciak have endorsed this policy and committed to the work it will require. I’m also comforted by the fact that the Agency of Natural Resources is required to report back to the Legislature in January 2025 on the feasibility of this effort, so we can reassess our go-it-alone approach. So, for these reasons, this bill will become law without my signature.

I hope those who endorsed this policy will follow through.

Sincerely,
Philip B. Scott

“June 10, 2024

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives

Montpelier, VT 05633

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, H.612, *An act relating to miscellaneous cannabis amendments*, will become law without my signature. When cannabis became legal in Vermont, I emphasized safeguards around use, especially for our kids. This bill takes some steps forward, and some steps back, in this area.

On the positive side, it closes a loophole related to hemp infused products with THC. It ensures individuals with significant, documented medical needs continue to have access to medical cannabis. It makes progress toward safeguards for those under 21 seeking access to more potent medical products. And it's responsive to municipal concerns regarding setbacks for outdoor cannabis cultivators.

I'm concerned, however, about warnings from healthcare providers that the availability of high potency medical cannabis products in more retail stores will increase use among those who do not have a valid medical prescription. I believe the Legislature should add additional guardrails and penalties to ensure medical cannabis cards are legitimately obtained and not illegally diverted. I'm also concerned that continued reductions in licensing fees will inevitably mean

revenue dedicated to prevention will have to be used to fund Cannabis Control Board operations, instead of the prevention efforts we must continue to prioritize.

It's important to note, the regulation of Vermont's cannabis market remains vulnerable to powerful interests that favor profits over the health and wellbeing of children. Vermont must remain true to the approach the Legislature has crafted by continuing to prioritize prevention and the health of our communities over the profits of growers and retailers.

On balance, however, I believe the benefits of this bill still outweigh the risks and that we have an opportunity to further protect against harmful outcomes when the Legislature returns in January.

Sincerely,

Philip B. Scott

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, H.630, *An act relating to improving access to high-quality education through community collaboration*, will become law without my signature.

As Vermonters know all too well, taxpayers – and our entire economy – are straining under historic inflation, unsustainable growth in government spending, and the possibility of a double-digit tax rate increase if the Legislature overrides my veto of H.887. While H.630 is well intentioned, I'm concerned this bill creates another level of bureaucracy, when we need to create a more efficient and effective system.

We may disagree in some areas of education reform, but there is universal agreement in the need for a focused review of Vermont's education system to reduce costs, increase equity, and improve student outcomes. Which leads me to believe H.630 could be putting the cart before the horse.

Having said that, this bill will become law without my signature because it gives communities the choice to opt into, or stay out of, a cooperative, and they have until July 1, 2026 to make that determination. This timeline provides an opportunity to prevent H.630 from becoming another idea from Montpelier that diverts education funding and management time away from the quality of our classrooms.

Sincerely,

Philip B. Scott

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, H.875, *An act relating to the State Ethics Commission and the State Code of Ethics* will become law without my signature.

A uniform statewide code of ethics that applies to all those performing public service in state government – across all three branches – and at the local level builds faith and trust in the institutions of our democracy. At a time when distrust in government is rising, and fear is used by politicians to divide us, the State has undertaken this important effort, as have many municipalities. I have been pleased to sign several previous ethics bills into law.

However, with the addition of municipal compliance, the Legislature did not fund reporting, investigations or the salary of a full-time Executive Director. These amount to another unfunded mandate, which could add to the municipal tax burden, and will add to the workload of municipal officials already working full tilt to take full advantage of the unprecedented investments in infrastructure my Administration is implementing.

The bill also has odd inconsistencies, in that it exempts school board members and some other local officials from having to meet the new requirements. Finally, I was troubled by changes to the composition of the Ethics Commission, to include members appointed by legislators, rather than by a neutral, non-partisan process.

Sincerely,

Philip B. Scott

“June 13, 2024

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives
115 State Street
Montpelier, VT 05633

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I'm returning H.121, *An act relating to enhancing consumer privacy and the age-appropriate design code*, without my signature because of my objections herein. This bill creates an unnecessary and avoidable level of risk.

One area of risk comes from the bill's "private right of action," which would make Vermont a national outlier, and more hostile than any other state to many businesses and non-profits – a reputation we already hold in a number of other areas. I appreciate this provision is narrow in its impact, but it will still negatively impact mid-sized employers, and is generating significant fear and concern among many small businesses.

Another area of risk comes from the "Kids Code" provision. While this is an important goal we can all support, similar legislation in California has already been stopped by the courts for likely First Amendment violations. We should await the decision in that case to craft a bill that addresses known legal pitfalls before charging ahead with policy likely to trigger high risk and expensive lawsuits. Vermonters will already be on the hook for expensive litigation when the Attorney General takes on "Big Oil," and should not have to pay for additional significant litigation already being fought by California.

Finally, the bill's complexity and unique expansive definitions and provisions create big and expensive new burdens and competitive disadvantages for the small and mid-sized businesses Vermont communities rely on. These businesses are already poised to absorb an onslaught of new pressures passed by the Legislature over the last two years, including a payroll tax, a Clean Heat Standard, a possible Renewable Energy Standard (if my veto is overridden), not to mention significant property tax increases.

The bottom line is, we have simply accumulated too much risk. However, if the underlying goals are consumer data privacy and child protection, there is a path forward. Vermont should adopt Connecticut's data privacy law, which New Hampshire has largely done with its new law. Such regional consistency is good for both consumers and the economy.

Sincerely,

Philip B. Scott

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I'm returning H.687, *An act relating to community resilience and biodiversity protection through land use*, without my signature because of my objections described below. But first, I want to assure you, there is a path forward and I would respectfully ask the Legislature to pass a replacement bill that will result in more housing while protecting rural communities from additional economic harm.

Despite almost universal consensus, I don't believe we've done nearly enough to address Vermont's housing affordability crisis.

H.687 is heavily focused on conservation and actually expands Act 250 regulation. And it does so at a pace that will slow down current housing efforts. Vermonters need us to focus on building and restoring the homes communities desperately need to revitalize working class neighborhoods, reverse our negative demographic trends, and support economic investment in the future.

Specifically, I would suggest a compromise that would achieve more balance and could be passed next week, with the following changes to H.687:

- **Modify removal provisions for the chair and executive director of the Land Use Review Board and ensure some political balance** – This measure is critical to ensuring accountability to Vermonters and prevent overregulation that will harm rural communities.
- **Modify the current Road Rule with the Amendment proposed by Senator Sears** – The addition of the Road Rule is a significant expansion of Act 250 that will make it harder to build. While I would prefer it be removed entirely, the Amendment proposed by Senator Sears would reduce the harmful impact. That amendment mirrors the recommendations of the Natural Resources Board (NRB) study group consensus report.
- **Extend the timeline to allow for reasonable implementation and more housing** – The current timeline for the new regulatory system is not achievable and will delay the permitting process for much-needed projects. Extending deadlines for interim exemptions to 2029 to coordinate with the start of the new system, will ensure Vermonters see the full benefit of the housing package, and a more thoughtful process.
- **Extend the interim exemptions to additional communities in need of housing** – Apply interim exemptions to areas serviced by municipal water and wastewater to give smaller, more rural communities the same opportunity for housing.
- **Increase the tools to spark revitalization of blighted units in low-income communities** – First, we should reverse the decision to exclude Bennington, Grand Isle and Essex counties from using the property tax value freeze available to every other county. Second, without impacting the FY25 budget, we can redirect new Property Transfer Tax revenue to increase the Downtown and Village Center Tax Credits by \$2 million. Third, implement the tri-partisan proposal for a Property Transfer Tax exemption when turning blighted properties into housing.
- **Make the 1B designation easier to achieve for long-term housing solutions** – Revert to the Senate-passed provision to automatically map all eligible Tier 1B areas while still enabling municipalities to opt-out of the Tier 1B designation, helping these communities benefit from housing exemptions sooner.

- **Limit appeals in designated areas to ensure interim exemptions can be used to boost housing** – Designated areas indicate that a community wants housing so limiting appeals makes sense and will allow the interim exemptions to have the jump-start effect we’re seeking.

To be clear, I would not object to the remaining H.687 provisions if the above changes were made – meaning I’m conceding a significant number of concerns, because I’m committed to a responsible compromise.

Working together on these changes would demonstrate to Vermonters that prioritizing housing wasn’t just a talking point.

Sincerely,

Philip B. Scott

“Madam Speaker:

I vote yes in honor of all of our family, friends, and neighbors who have died from overdoses. I vote yes in the spirit of hope and with love for those struggling now. Don’t give up. Every day you stay alive is another day that recovery is possible.”

Rep. Maguire of Rutland City explained his vote as follows:

“Madam Speaker:

To invest into an unknown harm reduction model is an injustice to the underfunded proven practices that save lives and bring our loved ones home to us.”

Rep. Morgan of Milton explained his vote as follows:

“Madam Speaker:

Constituents in my district have vehemently opposed this bill. In fact, the State’s Attorney in five of my six towns has stated his displeasure with this bill and its implications. I vote no.”

Rep. Roberts of Halifax explained his vote as follows:

“Madam Speaker:

I was reluctant to support a ‘safe injection site’ in Burlington. Then I visited OnPoint in New York City and I saw regular people who have a very difficult disease being met with love, in a safe environment, an ‘overdose prevention site’ with group supports like pancake breakfasts, laundry, and

medical care. I vote yes to meeting people where they are – not in a dangerous alley, but in a safe environment, with love.”

Rep. Sammis of Castleton explained his vote as follows:

“Madam Speaker:

My vote today was made in honor of those lost along the way, and for their families and communities that wear the scars and pain of loss. You are in our thoughts, and today we take action.”

Rep. Bartley of Fairfax explained her vote as follows:

“Madam Speaker:

I heard my constituents not just one time but both times when our school budgets were voted down. We need structural reform, not just more excuses with both sides at the table, not just the majority.”

Rep. Brady of Williston explained her vote as follows:

“Madam Speaker:

I voted to override the veto of H.887. This bill funds locally decided school budgets and I hardly consider school budgets beasts that we are feeding. Rather, schools are an essential service to kids and families. They may be expensive, but they are also the most important investment we make as a society. We have hard work ahead to bend the cost curve, but we must do it in a coherent way with a view of the whole forest and not just our individual trees. Students must be at the center of our work. We must transform our system in Vermont into a right-sized, strong public education system that supports all students and uses our precious statewide resources sustainably and efficiently. Our system is over 200 years in the making and while many of us might want to move faster, coherent change that truly supports students and schools with a common vision and much needed financial predictability will take time and extraordinary political will by all of us. I voted yes to commit to that work.”

Rep. Morgan of Milton explained his vote as follows:

“Madam Speaker:

Sadly, this bill will saddle the taxpayer with double-digit education property tax increases. With all of the towns that I represent having extreme difficulty passing budgets due to these looming increases it has at best been chaotic for them. Contrary to what is publicly being said, the Governor and his administration did have a plan that could have made this bill much, much more palatable to the taxpayer, which includes all of us in this room! My constituents, as a whole, have reached out begging for relief in this arena. Why we would not want a solution, now, for change is beyond my comprehension. Doing this bill as it sits simply, proverbially, kicks the can down the road without proper relief to the citizens of Vermont.”

Rep. Rachelson of Burlington explained her vote as follows:

“Madam Speaker:

I voted yes. We are between a rock and a hard place. Vermont’s current law requires the Legislature to set a tax rate to raise enough money to fund the budgets that passed the will of our local voters. Currently this is a \$2.8 billion price tag that gets no additional scrutiny and has no other checks and balances. Our current law of how we fund education doesn’t work and is not sustainable. It’s not easy to figure out, especially for part-time citizen legislatures, who have limited staffing, to sort out a new path forward. It’s no wonder there have been so many studies done. The Governor’s short-term options were unacceptable. I am not willing to take away free meals from school children and using our reserve funds to buy down the tax rate further this year is an expensive band-aid with long-term financial consequences.”

Rep. Taylor of Milton explained his vote as follows:

“Madam Speaker:

I voted to sustain the Governor’s veto. The taxpayers of my district and the Milton Town School District itself deserve better. This school budget season the Milton Town School District went to three votes and was on the verge of having to borrow money to continue to operate. The town became extremely divided, and emotions were high. The failure to pass substantial change this session leaves the path open for the same scenario or worse to play out next budget season. This will be devastating to Milton and I cannot sit back and support that possibility.”

Rep. Toof of St. Albans Town explained his vote as follows:

“Madam Speaker:

Our constituents deserve better than this historic double-digit 13.8% increase in property tax bills. We owe it to Vermonters to lessen this financial burden and make more structural changes to our broken system.”

Rep. Galfetti of Barre Town explained her vote as follows:

“Madam Speaker:

I voted no to stop the punitive exploitation of Vermonters. The Renewable Energy Standard, like the unaffordable Heat Act of last session, is a vehicle for a carbon tax. Proponents of H.289 have stated publicly that an alternative cost-effective proposal to H.289 would not go far enough to enrich renewable energy producers. This plan will force Vermonters to absorb the cost of the

required, expensive, and volatile carbon credits. The environmental impacts on our hillsides and open spaces to make way for wind and solar have been completely ignored. This bill will drive up the cost of electricity for struggling Vermonters that cannot afford another carbon tax.”

Rep. Patt of Worcester explained his vote as follows:

“Madam Speaker:

When the Environment and Energy Committee first began taking testimony on H.289, I was astounded by the degree of agreement and consensus that went into this bill before it was formally introduced. I was disappointed and troubled by the Department of Public Service’s cost analysis and counterproposal. Neither the PSD’s nor the Joint Fiscal Office’s cost analysis considers what financial benefits Vermonters may also see going forward. H.289 does recognize that different utilities are in different situations, that some have already reached 100% renewable, for example. And, lastly, some of the PSD’s supposedly ‘clean’ energy alternatives are not clean at all, based on my own knowledge and experience.”

Rep. Peterson of Clarendon explained his vote as follows:

“Madam Speaker:

I’ll vote no to any bill associated with the global warming money grab.”

Rep. Williams of Granby explained her vote as follows:

“Madam Speaker:

The most underserved, lowest income, oldest population in Vermont – yes, my district is getting shafted again. May I remind you, two towns in my district didn’t even get electricity until 1963. We can’t afford to live here anymore. Our children are leaving the State. Instead of helping us help ourselves, you are destroying our very existence. I have reminded you several times, leave us alone, stop putting these financial burdens on us and we can survive. You are not listening. The Vermont we grew up in no longer exists. I think a more fitting name for the new Vermont is CaliConnChusetts.”

On motion of **Rep. McCoy of Poultney**, the rules were suspended and the House's actions on the bill were ordered messaged to the Senate forthwith.

Recess

At twelve o'clock and fourteen minutes in the afternoon, the Speaker declared a recess until the fall of the gavel.

Called to Order

At one o'clock and fifty-one minutes in the afternoon, the Speaker called the House to order.

Rules Suspended, Immediate Consideration; Favorable Report; Second Reading; Third Reading Ordered; Rules Suspended, All Remaining Stages of Passage; Third Reading; Bill Passed; Rules Suspended, Messaged to the Senate Forthwith

H. 890

On motion of **Rep. McCoy of Poultney**, the rules were suspended and House bill, entitled

An act relating to delaying implementation of certain health insurance claims editing requirements

Pending entry on the Notice Calendar, was taken up for immediate consideration.

Rep. Black of Essex, for the Committee on Health Care, reported in favor of its passage.

The bill was read the second time and third reading ordered.

On motion of **Rep. McCoy of Poultney**, the rules were suspended and the bill placed in all remaining stages of passage. The bill was read the third time and passed.

Thereupon, on motion of **Rep. McCoy of Poultney**, the rules were suspended and the bill was ordered messaged to the Senate forthwith.

**Rules Suspended, Immediate Consideration;
Governor's Veto Overridden**

Rep Troiano of Stannard explained his vote as follows:

“Madam Speaker:

I have been a sponsor of four pollinator protection bills in my ten years here. Virtually every Vermonter I have ever spoken to about pollinators has favored this and all these bills. As one beekeeper put it, I am not a beekeeper, I am a bee buyer. The evidence is strong; neonics are damaging our pollinator population.”

**Senate Proposal of Amendment Concurred in with Further
Proposal of Amendment Thereto; Rules Suspended,
Messaged to Senate Forthwith****H. 81**

The Senate proposed to the House to amend House bill, entitled

An act relating to fair repair of agricultural equipment

The Senate proposed to the House to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. FINDINGS AND PURPOSE

(a) Findings. The General Assembly finds:

(1) The Vermont food, agriculture, and forest sectors are significant components of the State's economy, its rural heritage, and its identity as a State.

(A) According to the Working Lands Enterprise Initiative, about 20 percent of Vermont's land is used for agriculture, while another 78 percent is forested. In surveys conducted by the Initiative, over 97 percent of Vermonters expressed that they value the working landscape.

(B) The 2023 U.S. Food and Agriculture Industries Economic Impact Study found that the food and agriculture industries in Vermont were associated with nearly 104,000 jobs, \$5.2 billion in wages, and \$19.3 billion in economic output.

(C) The Vermont Sustainable Jobs Fund estimates that Vermont's forest products industry generates an annual economic output of \$1.4 billion and supports 10,500 jobs.

(2) Agricultural and forestry activity varies by season, is weather-dependent, and is heavily reliant on having access to increasingly sophisticated agricultural and forestry equipment. Vermont farmers' and foresters' access to safe and reliable equipment is essential to timely planting, cultivating, tilling, and harvesting of produce, protein, grain, timber, and other wood forest products.

(3) The COVID-19 pandemic further highlighted the increased and ongoing need for functional agricultural and forestry equipment as individuals in Vermont increasingly rely on the equipment to guarantee access to food and wood products during periods of supply chain disruption, raw material and commodities shortages, and heightened food insecurity.

(4) Authorized repair providers are important Vermont businesses that play a critical role for farmers and foresters by offering access to diagnosis, maintenance, and repair services for agricultural and forestry equipment.

(5) In general, original equipment manufacturers and authorized repair providers are able to provide independent repair providers and owners with adequate access to necessary parts for agricultural and forestry equipment. However, in order to maintain complex safety and emissions systems, limitations on software-related repairs implemented by original equipment manufacturers have led to frustration for some customers.

(6) Due to workforce, seasonal workload, and geographic constraints, authorized repair providers are not always able to meet the demand for timely diagnosis, maintenance, or repair services to farmers and foresters in this State.

(7) As for many Vermont employers, critical workforce shortages prevent authorized repair providers from operating at full staff capacity, which can contribute to costly delays in performing diagnosis, maintenance, and repair services.

(8) The need for more accessible and affordable repair options is felt more acutely among specific sectors of the population, notably Vermont residents in more rural and remote areas.

(9) Original equipment manufacturer shops and authorized repair providers are sometimes not located close to owners or independent repair providers, which may require owners or independent repair providers to travel long distances for repair or to be without functioning agricultural or forestry equipment for longer periods of time.

(10) Owners may be capable of performing their own diagnosis, maintenance, and repair services for their equipment.

(11) Independent repair providers play a vital role in Vermont's economy. Providing access to information, parts, and diagnostic and repair tools is essential in contributing to a competitive repair market and allowing independent repair shop employees to fix equipment safely.

(12) Extending the useful life and efficient operation of equipment may provide additional benefits for farmers, foresters, and the environment.

(A) Computerized components of modern agricultural and forestry equipment include precious metals that are finite.

(B) Emissions of agricultural and forestry equipment are better regulated and limited by functional software and hardware computer elements, thereby increasing the need for access to timely and effective repairs to ensure optimal functionality that is within the confines of federal regulatory limitations and existing technology needed to preserve intellectual property.

(13) Broader distribution of the information, tools, and parts necessary to repair modern agricultural and forestry equipment may shorten repair times, lengthen the useful lives of the equipment, lower costs for users, and benefit the environment.

(b) Purpose. The purpose of this act is to ensure equitable access to the parts, tools, and documentation that are necessary for independent repair providers and owners to perform timely repair of agricultural and forestry equipment in a safe, secure, reliable, and sustainable manner.

Sec. 2. SHORT TITLE

This act may be cited as the Fair Repair Act.

Sec. 3. 9 V.S.A. chapter 106 is added to read:

CHAPTER 106. AGRICULTURAL AND FORESTRY EQUIPMENT; FAIR REPAIR

§ 4051. DEFINITIONS

As used in this chapter:

(1) “Agricultural equipment” means a device, part of a device, or an attachment to a device used principally off road and designed solely for an agricultural purpose, including a tractor, trailer, or combine; implements for tillage, planting, or cultivation; and other equipment principally associated with livestock or crop production, horticulture, or floriculture.

(2)(A) “Authorized repair provider” means an individual or business that has an arrangement with the original equipment manufacturer under which the original equipment manufacturer grants to the individual or business a license to use a trade name, service mark, or other proprietary identifier for the purposes of offering the services of diagnosis, maintenance, or repair of equipment under the name of the original equipment manufacturer or other arrangement with the original equipment manufacturer to offer such services on behalf of the original equipment manufacturer.

(B) An original equipment manufacturer that offers the services of diagnosis, maintenance, or repair of its own equipment and that does not have an arrangement described in subdivision (A) of this subdivision (2) with an unaffiliated individual or business shall be considered an authorized repair provider with respect to such equipment.

(3) “Documentation” means any manual, diagram, reporting output, service code description, schematic diagram, security code, password, or other guidance or information, whether in an electronic or tangible format, to perform the services of diagnosis, maintenance, or repair of agricultural or forestry equipment.

(4) “Forestry equipment” means nondivisible equipment, implements, accessories, and contrivances used principally off road and designed solely for harvesting timber or for on-site processing of wood forest products necessary to and associated with a logging operation.

(5) “Independent repair provider” means a person operating in this State, either through a physical business location or through a mobile service that offers on-site repairs in the State, that does not have an arrangement described in subdivision (2) of this section with an original equipment manufacturer and that is engaged in the services of diagnosis, maintenance, or repair of agricultural or forestry equipment.

(6) “Memorandum of understanding” means an agreement that is:

(A) related to the right to repair of agricultural or forestry equipment;

(B) not legally binding; and

(C) between the original equipment manufacturer and the American Farm Bureau Federation or similar organization that advocates on behalf of farmers or loggers.

(7) “Original equipment manufacturer” means a person engaged in the business of selling, leasing, or otherwise supplying new agricultural or forestry equipment manufactured by or on behalf of itself to any individual or business.

(8) “Owner” means an individual or business that owns or leases agricultural or forestry equipment used in this State.

(9) “Part” means any replacement part, either new or used, made available by an original equipment manufacturer for purposes of effecting the services of maintenance or repair of agricultural or forestry equipment manufactured by or on behalf of, sold or otherwise supplied by, the original equipment manufacturer.

(10) “Repair” means to maintain, diagnose, or fix agricultural or forestry equipment resulting in the equipment being returned to its original equipment manufacturer specifications. “Repair” does not include the ability to:

(A) modify from original equipment specifications the embedded software or code;

(B) change any equipment or engine settings that negatively affect emissions or safety compliance; or

(C) download or access the source code of any embedded software or code.

(11) “Tools” means any software program, hardware implement, or other apparatus used for diagnosis, maintenance, or repair of agricultural or forestry equipment, including software or other mechanisms required to restore the product to its original manufacturer, including any updates.

(12) “Trade secret” has the same meaning as provided in 18 U.S.C. § 1839.

§ 4052. AVAILABILITY OF PARTS, TOOLS, AND DOCUMENTATION

(a) Duty to make available parts, tools, and documentation.

(1) An original equipment manufacturer shall offer for sale or otherwise make available to an independent repair provider or owner the parts, tools, and documentation for diagnosis or repair.

(2) If agricultural or forestry equipment includes an electronic security lock or other security-related function that must be unlocked, enabled, or disabled to perform diagnosis, maintenance, or repair of the equipment, an original equipment manufacturer may require a secured authorization process in order to prevent access to the source code or infringement of intellectual property in software or hardware owned by the original equipment manufacturer or licensed to the original equipment manufacturer by a third party and subject to terms of use.

(3) An original equipment manufacturer may satisfy its obligation to make parts, tools, and documentation available to an independent repair provider or owner through an authorized repair provider that consents to sell or make available parts, tools, or documentation on behalf of the manufacturer.

(b) Terms; limitations. Under the terms governing the sale or provision of parts, tools, and documentation, an original equipment manufacturer shall not impose on an independent repair provider or owner an additional cost or burden that is not reasonably necessary within the ordinary course of business or is designed to be an impediment on the independent repair provider or owner, including:

(1) a substantial obligation to use, or a restriction on the use of, the parts, tools, or documentation necessary to diagnose, maintain, or repair agricultural or forestry equipment;

(2) a condition that the independent repair provider or owner become an authorized repair provider of the original equipment manufacturer; or

(3) an additional burden or material change that adversely affects the timeliness or method of delivering parts, tools, or documentation.

§ 4053. ATTORNEY GENERAL ENFORCEMENT; NOTICE

(a) A violation of this section shall be deemed a violation of the Consumer Protection Act, 9 V.S.A. chapter 63, provided that no private right of action shall arise from the provisions of this act. The Attorney General has the same authority to make rules, conduct civil investigations, enter into assurances of discontinuance, and bring civil actions as provided under 9 V.S.A. chapter 63, subchapter 1.

(b) The Attorney General shall be notified in writing by the original equipment manufacturer not later than 30 days after a memorandum of understanding expires or has been terminated, withdrawn, or canceled by an original equipment manufacturer subject to this chapter.

§ 4054. APPLICATION; LIMITATIONS

(a) This chapter does not require an original equipment manufacturer to divulge a trade secret to an owner or an independent repair provider.

(b) This chapter does not alter the terms of any arrangement described in subdivision 4051(2)(A) of this title in force between an authorized repair provider and an original equipment manufacturer, including the performance or provision of warranty or recall repair work by an authorized repair provider on behalf of an original equipment manufacturer pursuant to such arrangement, except that any provision governing such an arrangement that purports to waive, avoid, restrict, or limit the original equipment manufacturer's obligations to comply with this chapter is void and unenforceable.

(c) This chapter does not alter the terms of a lease of agricultural or forestry equipment between an owner and another person.

(d) An independent repair provider or owner shall not:

(1) modify agricultural or forestry equipment to temporarily deactivate safety notification systems, except as necessary to provide diagnosis, maintenance, or repair services;

(2) access any function of a tool that enables the independent repair provider or owner to change the settings for a piece of agricultural or forestry equipment in a manner that brings the equipment out of compliance with the original manufacturer specifications or any applicable federal, state, or local safety or emissions laws; or

(3) obtain or use parts, tools, or documentation to evade or violate emissions, copyright, trademark, or patent laws or to engage in any other illegal activity.

(e) Original equipment manufacturers and authorized repair providers are not liable for faulty or otherwise improper repairs completed by independent repair providers or owners, including repairs that cause:

(1) damage to agricultural or forestry equipment that occurs during such repairs; and

(2) an inability to use, or the reduced functionality of, agricultural or forestry equipment resulting from the faulty or otherwise improper repair.

(f) In the event that federal law preempts part of the activity regulated by this chapter, this chapter shall be construed to regulate activity that has not been preempted.

(g) This chapter shall not apply to an original equipment manufacturer that has entered into a memorandum of understanding that substantially incorporates the provisions of this chapter. In the event that a memorandum of understanding expires or is terminated, withdrawn, or canceled, the original equipment manufacturer shall be required to comply with all provisions of this chapter no later than 30 days upon such termination, withdrawal, cancellation, or expiration.

Sec. 4. EFFECTIVE DATE

This act shall take effect on January 1, 2026.

Pending the question, Shall the House concur in the Senate proposal of amendment?, **Reps. Templeman of Brownington, Priestley of Bradford, Carroll of Bennington, Chase of Chester, Cole of Hartford, Duke of Burlington, Durfee of Shaftsbury, Graning of Jericho, Jerome of Brandon, Leavitt of Grand Isle, Marcotte of Coventry, Nicoll of Ludlow, O'Brien of Tunbridge, Pearl of Danville, Rice of Dorset, Sammis of Castleton, Surprenant of Barnard, White of Bethel, and Williams of Barre City** moved that the House concur in the Senate proposal of amendment with further proposal of amendment thereto by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. FINDINGS AND PURPOSE

(a) Findings. The General Assembly finds:

(1) The Vermont food, agriculture, and forest sectors are significant components of the State's economy, its rural heritage, and its identity as a State.

(A) According to the Working Lands Enterprise Initiative, about 20 percent of Vermont's land is used for agriculture, while another 78 percent is forested. In surveys conducted by the Initiative, over 97 percent of Vermonters expressed that they value the working landscape.

(B) The 2023 U.S. Food and Agriculture Industries Economic Impact Study found that the food and agriculture industries in Vermont were associated with nearly 104,000 jobs, \$5.2 billion in wages, and \$19.3 billion in economic output.

(C) The Vermont Sustainable Jobs Fund estimates that Vermont's forest products industry generates an annual economic output of \$1.4 billion and supports 10,500 jobs.

(2) Agricultural and forestry activity varies by season, is weather-dependent, and is heavily reliant on having access to increasingly sophisticated agricultural and forestry equipment. Vermont farmers' and foresters' access to

safe and reliable equipment is essential to timely planting, cultivating, tilling, and harvesting of produce, protein, grain, timber, and other wood forest products.

(3) The COVID-19 pandemic further highlighted the increased and ongoing need for functional agricultural and forestry equipment as individuals in Vermont increasingly rely on the equipment to guarantee access to food and wood products during periods of supply chain disruption, raw material and commodities shortages, and heightened food insecurity.

(4) Authorized repair providers are important Vermont businesses that play a critical role for farmers and foresters by offering access to diagnosis, maintenance, and repair services for agricultural and forestry equipment.

(5) In general, original equipment manufacturers and authorized repair providers are able to provide independent repair providers and owners with adequate access to necessary parts for agricultural and forestry equipment. However, in order to maintain complex safety and emissions systems, limitations on software-related repairs implemented by original equipment manufacturers have led to frustration for some customers.

(6) Due to workforce, seasonal workload, and geographic constraints, authorized repair providers are not always able to meet the demand for timely diagnosis, maintenance, or repair services to farmers and foresters in this State.

(7) As for many Vermont employers, critical workforce shortages prevent authorized repair providers from operating at full staff capacity, which can contribute to costly delays in performing diagnosis, maintenance, and repair services.

(8) The need for more accessible and affordable repair options is felt more acutely among specific sectors of the population, notably Vermont residents in more rural and remote areas.

(9) Original equipment manufacturer shops and authorized repair providers are sometimes not located close to owners or independent repair providers, which may require owners or independent repair providers to travel long distances for repair or to be without functioning agricultural or forestry equipment for longer periods of time.

(10) Owners may be capable of performing their own diagnosis, maintenance, and repair services for their equipment.

(11) Independent repair providers play a vital role in Vermont's economy. Providing access to information, parts, and diagnostic and repair tools is essential in contributing to a competitive repair market and allowing independent repair shop employees to fix equipment safely.

(12) Extending the useful life and efficient operation of equipment may provide additional benefits for farmers, foresters, and the environment.

(A) Computerized components of modern agricultural and forestry equipment include precious metals that are finite.

(B) Emissions of agricultural and forestry equipment are better regulated and limited by functional software and hardware computer elements, thereby increasing the need for access to timely and effective repairs to ensure optimal functionality that is within the confines of federal regulatory limitations and existing technology needed to preserve intellectual property.

(13) Broader distribution of the information, tools, and parts necessary to repair modern agricultural and forestry equipment may shorten repair times, lengthen the useful lives of the equipment, lower costs for users, and benefit the environment.

(b) Purpose. The purpose of this act is to ensure equitable access to the parts, tools, and documentation that are necessary for independent repair providers and owners to perform timely repair of agricultural and forestry equipment in a safe, secure, reliable, and sustainable manner.

Sec. 2. SHORT TITLE

This act may be cited as the Fair Repair Act.

Sec. 3. 9 V.S.A. chapter 106 is added to read:

CHAPTER 106. AGRICULTURAL AND FORESTRY EQUIPMENT; FAIR REPAIR

§ 4051. DEFINITIONS

As used in this chapter:

(1) “Agricultural equipment” means a device, part of a device, or an attachment to a device used principally off road and designed solely for an agricultural purpose, including a tractor, trailer, or combine; implements for tillage, planting, or cultivation; and other equipment principally associated with livestock or crop production, horticulture, or floriculture.

(2)(A) “Authorized repair provider” means an individual or business that has an arrangement with the original equipment manufacturer under which the original equipment manufacturer grants to the individual or business a license to use a trade name, service mark, or other proprietary identifier for the purposes of offering the services of diagnosis, maintenance, or repair of equipment under the name of the original equipment manufacturer or other

arrangement with the original equipment manufacturer to offer such services on behalf of the original equipment manufacturer.

(B) An original equipment manufacturer that offers the services of diagnosis, maintenance, or repair of its own equipment and that does not have an arrangement described in subdivision (A) of this subdivision (2) with an unaffiliated individual or business shall be considered an authorized repair provider with respect to such equipment.

(3) “Documentation” means any manual, diagram, reporting output, service code description, schematic diagram, security code, password, or other guidance or information, whether in an electronic or tangible format, used to perform the services of diagnosis, maintenance, or repair of agricultural or forestry equipment.

(4) “Forestry equipment” means nondivisible equipment, implements, accessories, and contrivances used principally off road and designed solely for harvesting timber or for on-site processing of wood forest products necessary to and associated with a logging operation.

(5) “Independent repair provider” means a person operating in this State, either through a physical business location or through a mobile service that offers on-site repairs in the State, that does not have an arrangement described in subdivision (2) of this section with an original equipment manufacturer and that is engaged in the services of diagnosis, maintenance, or repair of agricultural or forestry equipment.

(6) “Memorandum of understanding” means an agreement that is:

(A) related to the right to repair of agricultural or forestry equipment;

(B) not legally binding; and

(C) between the original equipment manufacturer and the American Farm Bureau Federation or similar organization that advocates on behalf of farmers or loggers.

(7) “Original equipment manufacturer” means a person engaged in the business of selling, leasing, or otherwise supplying new agricultural or forestry equipment manufactured by or on behalf of itself to any individual or business.

(8) “Owner” means an individual or business that owns or leases agricultural or forestry equipment used in this State.

(9) “Part” means any replacement part, either new or used, made available by an original equipment manufacturer for purposes of effecting the services of maintenance or repair of agricultural or forestry equipment

manufactured by or on behalf of, sold or otherwise supplied by, the original equipment manufacturer.

(10) “Repair” means to maintain, diagnose, or fix agricultural or forestry equipment, resulting in the equipment being restored to its fully functional condition, including any updates. “Repair” does not include the ability to:

(A) permanently modify from original equipment specifications the embedded software or code;

(B) permanently change any equipment or engine settings that negatively affect emissions or safety compliance; or

(C) download or access the source code of any embedded software or code, unless doing so is required to restore the equipment to its fully functional condition, including any updates.

(11) “Tools” means any software program, hardware implement, or other apparatus used for diagnosis, maintenance, or repair of agricultural or forestry equipment, including software or other mechanisms that provision, program, or pair a new part; calibrate functionality; or perform any other function required to bring the product back to fully functional condition, including any updates.

(12) “Trade secret” has the same meaning as provided in 18 U.S.C. § 1839.

§ 4052. AVAILABILITY OF PARTS, TOOLS, AND DOCUMENTATION

(a) Duty to make available parts, tools, and documentation.

(1) An original equipment manufacturer shall offer for sale or otherwise make available to an independent repair provider or owner the parts, tools, and documentation that the original equipment manufacturer offers for sale or otherwise makes available to an authorized repair provider.

(2) If agricultural or forestry equipment includes an electronic security lock or other security-related function that must be unlocked, enabled, or disabled to perform diagnosis, maintenance, or repair of the equipment, an original equipment manufacturer shall make available to an independent repair provider or owner any parts, tools, and documentation necessary to unlock or disable the function and to reset the lock or function after the diagnosis, maintenance, or repair is complete.

(3) An original equipment manufacturer may satisfy its obligation to make parts, tools, and documentation available to an independent repair provider or owner through an authorized repair provider that consents to sell or make available parts, tools, or documentation on behalf of the manufacturer.

(b) Terms; limitations. Under the terms governing the sale or provision of parts, tools, and documentation, an original equipment manufacturer shall not impose on an independent repair provider or owner an additional cost or burden that is not reasonably necessary within the ordinary course of business or is designed to be an impediment on the independent repair provider or owner, including:

(1) a substantial obligation to use, or a restriction on the use of, the parts, tools, or documentation necessary to diagnose, maintain, or repair agricultural or forestry equipment;

(2) a condition that the independent repair provider or owner become an authorized repair provider of the original equipment manufacturer;

(3) a requirement that a part, tool, or documentation be registered, paired with, or approved by the original equipment manufacturer or an authorized repair provider before the part, tool, or documentation is operational; or

(4) an additional burden or material change that adversely affects the timeliness or method of delivering parts, tools, or documentation.

§ 4053. ATTORNEY GENERAL ENFORCEMENT; NOTICE

(a) A person who violates a provision of this chapter commits an unfair and deceptive act in trade and commerce in violation of section 2453 of this title.

(b) The Attorney General has the same authority to make rules, conduct civil investigations, enter into assurances of discontinuance, and bring civil actions as provided under chapter 63, subchapter 1 of this title.

(c) The Attorney General shall be notified in writing by the original equipment manufacturer not later than 30 days after a memorandum of understanding expires or has been terminated, withdrawn, or canceled by an original equipment manufacturer subject to this chapter.

§ 4054. APPLICATION; LIMITATIONS

(a) This chapter does not require an original equipment manufacturer to divulge a trade secret to an owner or an independent repair provider.

(b) This chapter does not alter the terms of any arrangement described in subdivision 4051(2)(A) of this title in force between an authorized repair provider and an original equipment manufacturer, including the performance or provision of warranty or recall repair work by an authorized repair provider on behalf of an original equipment manufacturer pursuant to such arrangement, except that any provision governing such an arrangement that purports to waive, avoid, restrict, or limit the original equipment manufacturer's obligations to comply with this chapter is void and unenforceable.

(c) This chapter does not alter the terms of a lease of agricultural or forestry equipment between an owner and another person.

(d) An independent repair provider or owner shall not:

(1) modify agricultural or forestry equipment to temporarily deactivate safety notification systems, except as necessary to provide diagnosis, maintenance, or repair services;

(2) access any function of a tool, excluding a tool strictly needed for a software update or to correct a defect or safety issue, that enables the independent repair provider or owner to change the settings for a piece of agricultural or forestry equipment in a manner that brings the equipment out of compliance with the original manufacturer specifications or any applicable federal, state, or local safety or emissions laws; or

(3) obtain or use parts, tools, or documentation to evade or violate emissions, copyright, trademark, or patent laws or to engage in any other illegal activity.

(e) Original equipment manufacturers and authorized repair providers are not liable for faulty or otherwise improper repairs completed by independent repair providers or owners, including repairs that cause:

(1) damage to agricultural or forestry equipment that occurs during such repairs; and

(2) an inability to use, or the reduced functionality of, agricultural or forestry equipment resulting from the faulty or otherwise improper repair.

(f) In the event that federal law preempts part of the activity regulated by this chapter, this chapter shall be construed to regulate activity that has not been preempted.

(g) If an original equipment manufacturer is a party to a memorandum of understanding:

(1) the original equipment manufacturer is still obligated to meet the requirements established in this chapter; and

(2) the memorandum of understanding may be used, subject to the provisions set forth in this chapter, to establish the processes and procedures for an independent repair provider or owner to repair agricultural or forestry equipment.

Message from the Governor

A message was received from His Excellency, the Governor, by Ms. Brittney L. Wilson, Secretary of Civil and Military Affairs, as follows:

Madam Speaker:

I am directed by the Governor to inform the House of Representatives that on the 28th day of June 2024, a bill originating in the House of the following title *will become law without his signature*:

H.55 An act relating to miscellaneous unemployment insurance, workers' compensation, and employment practices amendments and to establishing the Vermont Baby Bond Trust

Governor's Letter

“June 28, 2024

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives
115 State Street
Montpelier, VT 05633

Dear Ms. Wrask:

I'm writing to express my intent for H.55, *An act relating to miscellaneous unemployment insurance, workers' compensation, and employment practices amendments and to establishing the Vermont Baby Bond Trust*.

As the title of this bill suggests, it is an expansive collection of initiatives, some of which will be beneficial to Vermonters and some of which may add to the growing and unsustainable cost burdens imposed by this Legislature.

On the one hand, the bill moves toward better early detection of cancer in firefighters, who are known to have a much higher risk of developing cancer compared to other occupations. It also expands the availability of unemployment benefits from four weeks to ten weeks during a declared state of emergency.

On the other hand, it establishes well-intentioned workers compensation presumptions for certain state employees and a so-called “Baby Bond Trust.” The Baby Bond Trust program alone has the potential to add \$6.5 million to the State budget, and likely increase annually. However, having said that, the Treasurer has made assurances that at least one public donor and private foundations will provide financial and other support, at least in the short term.

This bill fails to acknowledge the obvious questions about funding pressures in the future. But as in many other instances this legislative session, I’ve been put in the position of weighing the good versus the bad, which leads me to let this bill go into law without my signature.

Sincerely,

Philip B. Scott
Governor
PBS/kp”

Message from Rep. Pajala of Londonderry

“July 25, 2024

Representative Jill Krowinski
Speaker of the House

Dear Madam Speaker:

I am writing to tender my resignation from my position as Representative for the WindhamWindsor-Bennington District in the Vermont House effective July 31, 2024. This decision has been carefully considered and is made with a sense of hope for the future of the State of Vermont and for my family.

During my tenure, I have had the privilege and challenge of serving the Vermonters of my District through pandemic, flooding and more importantly recovery from both. I am grateful for the trust and support that I have received from the community during my years of service. I hope to be able to continue to contribute to the development and progress in our State from a different vantage point in my next professional role.

After much reflection and consideration of personal and professional goals, I have decided that it is time for me to pursue new opportunities and challenges. I am confident that this decision will allow me to make an impact in different ways while continuing to work for a sustainable, vibrant Vermont. I remain committed to the principles and values that have guided my service and will carry them into my next endeavors.

I am deeply appreciative of the relationships I have built and the experiences I have gained during my time in office. I thank you, my committee, all of the Legislative and State House staff and all the Members of the General Assembly for their hard work and dedication to the State of Vermont. I send you all the best as you continue your work in Montpelier.

Sincerely,

Kelly M Pajala”

GENERAL INDEX

2024

The following is a list of abbreviations and their meanings:

H.....	House Bill
H.C.R.....	House Concurrent Resolution
H.R.....	House Resolution
J.R.H.....	Joint Resolution of the House
J.R.S.....	Joint Resolution of the Senate
Prop.....	Constitutional Proposal
S.....	Senate Bill
S.C.R.....	Senate Concurrent Resolution
Table.....	Appendix B

This General Index provides legislation subjects and lists the titles of legislation that cover those topics. After each legislation title, “See table [legislation number]” directs the reader to the page number of Appendix B that contains the abbreviated list of that legislation’s procedural history in the House. Appendix B in turn provides the page numbers of this Journal that recorded that procedural history.

The General Index also provides references to House members and the page numbers of this Journal that recorded any information applicable to the members, such as their committee membership, legislation they sponsored, motions they made, and their roll call vote explanations. In addition, the General Index references the legislation sponsored by House standing committees. Note that the General Index does not include the concurrent resolutions sponsored by House members or committees, but all legislation sponsors are listed in Appendix B.

Finally, the General Index cites the page numbers of this Journal that contain other miscellaneous recorded information regarding this House session.

The full text of each bill that was enacted into law and of each joint and concurrent resolution that was adopted by the House and Senate may be found in the publication entitled *Acts and Resolves Passed by the General Assembly of the State of Vermont*, which the Secretary of State publishes for each annual session of the General Assembly.
