H.R. 13 Shall the House adopt the resolution?

Rep. Gregoire of Fairfield explained his vote as follows:

“Madam Speaker:

I vote yes out of respect for minority leadership who worked to achieve compromise. However, we must not continue to hold this body above those we represent, those who go to work every day including those who work around populations. This is especially true given the extraordinary efforts of leadership to ensure that our workplace is safe. I will not vote to extend remote legislation in the future.”

Rep. McCullough of Williston explained his vote as follows:

“Madam Speaker:

I voted for H.R.13 with the intention of avoiding, not creating, a legislative annus horribilis.”

Rep. Ode of Burlington explained her vote as follows:

“Madam Speaker:

The Legislature is in the unique position of drawing representatives from every single corner of Vermont. Each of us represents 4000 or 8000 Vermonters. I vote yes today based on the best advice we have to protect all of the more than 624,000 Vermonters.”

Rep. Strong of Albany explained her vote as follows:

“Madam Speaker:

‘Two weeks to flatten the curve’ was a year and a half ago. Let’s represent our constituents here in person without restriction.”

Rep. Williams of Granby explained her vote as follows:

“Madam Speaker:

I am voting yes not because I am concerned about the risk factor. I am voting yes to show my respect to those who have a concern. The State of Vermont has spent hundreds of thousands of taxpayers’ money to make us safe here. God bless the people that planned, diagrammed, measured, coordinated, moved, connected, and reconnected for hours and days on end to make this a safe

working environment. I look forward to getting back to the State House on the 18th day of this month to do the work I was elected to do in a way that best serves the people.”

H.R. 14 Shall the resolution be amended as offered by Rep. McCullough of Williston?

Rep. Rachelson of Burlington explained her vote as follows:

“Madam Speaker:

With all due respect and gratitude to you and the members of the House Rules Committee for your well thought out proposal. Having people make their own decision about coming in if they are “comfortable” doesn’t unfortunately do anything to stop the spread of COVID. Comfortable and noncontagious do not go hand in hand. I cannot in good conscience, add one more burden to our health care system and our health care workers. The system is short staffed, and workers are exhausted from saving lives and treating people from everything they normally do, to treating COVID patients. I will continue to advocate for a statewide mask mandate, and other measures so that Vermont workers do not have to choose between their safety and their paycheck.”

H. 679 Shall the bill be read a third time?

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

In addition to balancing our budget mid-year, H.679 offers an opportunity to address current critical needs, including ongoing pandemic response. I vote yes to support important investments in housing, workforce retention, and providing services to Vermonters who have been deeply impacted by COVID-19. This Budget Adjustment helps Vermonters facing crises like food insecurity or a lack of childcare all while setting us up for a more sustainable financial future. ”

S. 30 Shall the bill be committed to the Committee on Health Care?

Rep. Cordes of Lincoln explained her vote as follows:

“Madam Speaker:

I voted no because a mental health professional’s reporting requirements are well established in common law by Peck v. Counseling Service of Addison County, Inc., and in long standing mental health and healthcare practice.”

Prop 2 Shall the House adopt the constitutional proposal in concurrence?

Rep. Burrows of West Windsor explained her vote as follows:

“Madam Speaker:

I am humbled to be able to vote yes, and I dedicate my vote to Dinah Mason, a human sold as property to Vermont Supreme Court Justice Stephen Jacob, of Windsor, Vermont, in 1783. Thank you.”

Rep. Christie of Hartford explained his vote as follows:

“Madam Speaker:

With a tear in my eye.

My vote is clearly stated in the lyrics of our State Song.

‘These Green Hills and silver waters are my home they belong to me and to ALL her sons and daughters may they be strong and forever free.’”

Prop 5 Shall the House adopt the Constitutional proposal in concurrence?

Rep. Harrison of Chittenden explained his vote as follows:

“Madam Speaker:

The Vermont Constitution belongs to all Vermonters, and I would normally default to vote for the opportunity for everyone to make a decision on this amendment as I did in the last biennium. However, as we know, the constitution amendment process puts this body in an important gatekeeper role with passage in two successive bienniums. As I listened to the discussion and explanations today, there are perhaps more questions than answers on what this amendment means so I feel compelled to vote no.”

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

Vermonters have valued the right to have access to personal reproductive freedom for nearly half a century. Today, we have taken a fundamental step in ensure that reproductive liberty will be a guaranteed right for future generations. I voted in support of Proposition 5 to give Vermont voters a voice in preserving that right in our Constitution, for Vermonters today and for all who come after us.”

H. 510 Shall the bill be amended as recommended by the Committee on Ways and Means?

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

I am voting yes at this point so that a tax relief initiative moves forward, because I believe we do need to return some of our added revenues to struggling Vermonters. I hope it will eventually include more balanced supports that focus on the greatest needs. If it does not, I will not support the final bill.”

Rep. Goslant of Northfield explained his vote as follows:

“Madam Speaker:

Today I voted against this bill, not because I am opposed to tax relief to young families and expanding the Social Security income tax exemption. In fact, I am thrilled that we are discussing returning nearly \$50M to Vermonters...and are FINALLY talking about ways to attract more people to the State.

However, I voted NO...because...I believe other tax relief proposals should be vetted and discussed before moving something of this magnitude. It is time that we pay attention to our seniors...and I believe that we can do much more on Social Security than a \$5000 increase. I hope that we can continue the conversation on how to provide tax relief to as many Vermonters as possible...including military retirees...those with student loan debt...nurses...childcare workers...those with not just children but adult dependents...and more.”

H. 510 Shall the bill be amended as offered by Rep. LaClair in the first instance of amendment and its applicable effective dates?

Rep. Kimbell of Woodstock explained his vote as follows:

“Madam Speaker:

While I prefer the \$100,000 income limitation, I trust the work of the committee in creating a tax credit to benefit most of the young Children in Vermont, so I vote ‘No’.”

S. 30 Shall the House concur in the Senate proposal of amendment to the House proposal of amendment?

Rep. Black of Essex explained her vote as follows:

“Madam Speaker:

Until it is established that you are not prohibited from possessing a firearm, you should not have one. There are some things that are far more important than the inconvenience of taking a little bit of extra time. And this amendment ensures that.”

H. 708 Shall the bill be read a third time?

Rep. Rachelson of Burlington explained her vote as follows:

“Madam Speaker:

According to VT Legal Aid, **20% of all filed eviction cases in Chittenden County were for no cause**. Preventing evictions will not only help address our homeless crisis, it will also protect the health of our most vulnerable. As the evidence has shown, passage of just cause eviction laws are a relatively low-cost, effective policy solution that has proven to help bend the curve on senseless evictions.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

Just cause eviction policies are important tenant protections that were endorsed as such this week by the American Bar Association. In a time when vacancy rates are low and housing costs are soaring, tenant protections are more important than ever before. We heard testimony from people facing no cause eviction and how that had upended their lives, made them homeless and done irreparable harm. Every tool we can use to provide safe and stable housing for Vermonters is of the utmost importance. Renters often do not have choices and even fewer on a rental market like today's. We are in a statewide crisis thus preventing crisis for tenants evicted for no cause is direly important. For that reason and many more I am voting yes today to protect vulnerable Vermonters.”

Rep. Williams of Granby explained her vote as follows:

“Madam Speaker:

The more restrictions we put on property owners, the less interested the property owner will be to offer long term rental. As a result, we are creating more homelessness not less. I long for the time when a property owner had control of his own property.”

H. 697 Shall the bill be read a third time?

Rep. Parsons of Newbury explained his vote as follows:

“Madam Speaker:

I voted 'No' on this bill specifically dealing with our current use system and the goals of our forests.

We however did not seek the input of the current use advisory board or send it to our forestry committee. I cannot support the process.”

Rep. Sheldon of Middlebury explained her vote as follows:

“Madam Speaker:

Old forests play a critical role in addressing climate change and reviving the loss of biodiversity. They sequester and store more carbon and provide necessary habitat for all species. This bill is one small step towards increasing the amount of old forest in Vermont.”

H.R. 20 Shall the House adopt the resolution?

Rep. Anthony of Barre City explained his vote as follows:

“Madam Speaker:

The proposed rule is inconsistent with the bedrock value of mutual and equal respect between and among all members.”

Rep. Bos-Lun of Westminster explained her vote as follows:

“Madam Speaker:

I voted to support this resolution to preserve the option of hybrid legislation. We need a flexible policy which allows legislators to participate in the legislative process remotely for varied reasons. We must keep working on this issue.”

Rep. McCullough of Williston explained his vote as follows:

“Madam Speaker:

I vote 'Yes.' This resolution is the best of two bad choices. A no vote outcome returns the Body to its historic pre-COVID rules, putting the Members and their families at an even greater risk.”

Rep. Yantachka of Charlotte explained his vote as follows:

“Madam Speaker:

I voted 'Yes' because there was no practical alternative. However, I feel that the terms of this rule are much too restrictive based on our experience with remote participation during the last two years.”

H. 722 Shall the bill be read a third time?

Rep. Achey of Middletown Springs explained her vote as follows:

“Madam Speaker:

I voted ‘yes’ reluctantly. My district did not need to be changed. We could have even added back the part of Tinmouth that had been separated for 10 years. However, the neighboring district had lost population that required a change. We looked at many other options, but in the end that chosen solution was to divide the town of Wells. They did not want to be split and I did not want to lose any part of that town. We all have to decide to accept the decision.”

Rep. Lefebvre of Orange explained her vote as follows:

“Madam Speaker:

My vote in support of H.722 was due to the communication, public engagement, and detail that went into redistricting the state of Vermont. I’m discouraged that the town of Williamstown was divided when there was no constitutional reason to. There were many options brought forward that were denied.”

Rep. McCarthy of St. Albans City explained his vote as follows:

“Madam Speaker:

I vote yes. The decennial reapportionment is a difficult task. This map meets constitutional and statutory requirements to apportion the 150 seats in the Vermont House.”

Rep. Smith of Derby explained his vote as follows:

“Madam Speaker:

While I will be proud to serve the town I grew up in, I feel the other towns in my district have been shortchanged by this decision.”

H. 715 Shall the bill be read a third time?

Rep. Cordes of Lincoln explained her vote as follows:

“Madam Speaker:

I voted yes for H. 715 for my grandchildren.”

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

Establishing a Clean Heat Standard was a key recommendation of the Climate Council established by the Global Warming Solutions Act. This is a critical step in our on-going work to reduce Vermonters’ dependence on fossil fuels. This legislation incentivizes the energy industry to work with Vermonters to make the transition to cleaner, more affordable heating methods. I vote yes.”

Rep. Rogers of Waterville explained her vote as follows:

“Madam Speaker:

I voted yes to move us toward stable and affordable options in our heating sector and to prepare for the changes and challenges we will face throughout my lifetime and for generations to come due to climate change.”

Rep. Stebbins of Burlington explained her vote as follows:

“Madam Speaker:

I am proud to vote yes on this bill.

The excuses for why we shouldn't reduce our reliance on fossil fuels are typically:

1. We don't know what this bill will do.
2. This might cost too much.
3. This might hurt our most vulnerable.
4. This won't do anything. Vermont is too small.

My answers are:

1. We know climate change is hurting Vermonters now.
2. Not acting now will only cost us more.
3. Our most vulnerable will be more hurt by our inaction.
4. How will you explain to your children why you didn't act.”

H. 727 Shall the bill be read a third time?

Rep. Elder of Starksboro explained his vote as follows:

“Madam Speaker:

H. 727 addresses the symptom of school withdrawal, without addressing obvious, underlying causes. This approach lacks empathy and will only serve to exacerbate unnecessary conflict for my constituents. For these reasons I voted no.”

Rep. Kornheiser of Brattleboro explained her vote as follows:

“Madam Speaker:

This bill sets up a clear and transparent withdrawal process that maximizes transparency and information-gathering for voters ahead of votes. It also assures that the withdrawing town has a plan in place to provide vital services, such as special education, curriculum development and business management. H. 727 leaves the power with local voters while ensuring that they have the information they need to make the best decisions for children and families.”

H. 96 Shall the bill be read a third time?

Rep. Bluemle of Burlington explained her vote as follows:

“Madam Speaker:

The Canadian Reparations Commission noted that 'real change comes from a new connection to others.' This bill offers a watershed opportunity for new, authentic connection - through truth-telling and a willingness to listen with curiosity and compassion.”

Rep. Elder of Starksboro explained his vote as follows:

“Madam Speaker:

To advance the cause of social justice we must first look backward, unflinchingly and with open hearts. We must acknowledge that without truth there can be no justice.

Rep. Smith of Derby explained his vote as follows:

“Madam Speaker:

If I knew that this vote would be the last apology for something that no one in this room had anything to do with, I could have voted yes! We need to stop apologizing for past things done and move forward to make Vermont better rather than weaker!”

H. 703 Shall the bill pass?

Rep. Anthony of Barre City explained his vote as follows:

“Madam Speaker:

H.703 represents a welcome process of connecting career, technical education at our career centers to a continuum of workforce development.”

Rep. Rachelson of Burlington explained her vote as follows:

“Madam Speaker:

I’ve talked to constituents eager to get into nursing, other constituents who are employers in dire need of trained staff, and so many of my constituents came here for college, fell in love with Vermont, and want to stay. This bill will make all of this a real possibility for so many of them.”

H. 740 Shall the bill pass?

Rep. Christie of Hartford explained his vote as follows:

“Madam Speaker:

I voted yes on our Budget today because a budget is ‘the collection of values expectations and practices that guide and inform the actions of all of its members.’ Our budget said today that we care about Equity and Inclusion for ALL Vermonters, with intentional regard to BIPOC and Disenfranchised Vermonters. Our work here is a Marathon and we may be at different mile markers, yet rest assured, we can cross the finish line. This budget says we care.”

Rep. Goslant of Northfield explained his vote as follows:

“Madam Speaker:

While this budget does make important investments in Vermonters, there are several areas of concern that I am basing my no vote on today. First and foremost, this budget removes 100 million dollars for economic development. These programs would help the businesses and their workers that I hear from, every single day. I understand the Senate may restore some of these funds... but my vote is based on the budget in front of me. Additionally, we have a once in a lifetime opportunity to make historic investments in our rural communities...we need to meet the moment...and this budget falls short.”

Rep. Gregoire of Fairfield explained his vote as follows:

“Madam Speaker:

Overall this is a good budget but I’m disappointed that too little funding is invested in economic development, that it does not contain \$15M for middle income housing, that it spends ARPA money on programs instead of on infrastructure, that it is devoid of the Governor’s tax relief ideas, which I believe would best help Vermonters.”

Rep. Kimbell of Woodstock explained his vote as follows:

“Madam Speaker:

This budget invests \$41.9 million in workforce development, one of the greatest challenges facing our economy now and in the future.”

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

Every year, we pass a balanced budget that reflects careful stewardship of Vermont’s financial resources. This budget invests in programs that reflect and bring to life our deepest values. I vote yes today to support Vermont families and communities in all 14 counties, to protect the most vulnerable, and to build a more vibrant future for all of us.”

Rep. McCoy of Poultney explained her vote as follows:

“Madam Speaker:

Our House Appropriations Committee has my sincere thanks for the massive job they undertake every year to ensure our budget leaves the House balanced. I voted yes on the bill, however am disappointed the Governor’s budget proposals of 100 million dollars for robust economic recovery funding to help our State move forward towards transformative change to our economy, as well as tax relief for the military and student loan interest and housing income and child care workers tax credits, were left on the cutting room floor.”

Rep. Morgan, M. of Milton explained his vote as follows:

“Madam Speaker:

I voted yes on the Appropriations Bill today. However, I do hope this body, in future years, takes the appropriate action to reduce our budgetary spending when Federal dollars have been exhausted.”

Rep. Scheuermann of Stowe explained her vote as follows:

“Madam Speaker:

While I do not support all that is included in this budget, and never have in a budget, I voted in favor of the bill. I am specifically grateful for the full funding of the Governor’s proposal surrounding tourism and marketing.”

Rep. Toof of St. Albans Town explained his vote as follows:

“Madam Speaker:

I appreciate the hard work done by the House Committee on Appropriations. Although I ultimately voted in favor of H.740, I was disappointed to see that the budget cuts \$100 million of proposed economic recovery spending. Businesses across the State are struggling and these funds could be crucial in helping them recover.”

Rep. White of Hartford explained her vote as follows:

“Madam Speaker:

I vote yes for this transformational budget that supports Vermont today and invests strategically in the next generation. Thank you to the Appropriations Committee for strengthening our infrastructure, both physical and social.”

Rep. Wood of Waterbury explained her vote as follows:

“Madam Speaker:

The people of Vermont are fortunate to have the balanced approach to investing in Vermont and its citizens, particularly older Vermonters and those with disabilities. This budget represents the intensity of needs of Vermonters and invests in our future.”

S. 265 Shall the bill pass in concurrence with proposal of amendment?

Rep. McCoy of Poultney explained her vote as follows:

“Madam Speaker:

A carve out to somehow hold ourselves above an existing law that already protects everyone, is something I cannot support.”

Rep. Rachelson of Burlington explained her vote as follows:

“Madam Speaker:

Threats against State employees, elected officials, election workers, and others have increased in Vermont. These threats go against Vermont values and result in keeping people from serving or working, or drive people to stop serving or working. We've sadly already seen that happen right here in our Chamber.

I voted yes to strongly send a message that this behavior is not okay and will not be tolerated.”

Rep. Walker of Swanton explained his vote as follows:

“Madam Speaker:

I believe in and support the good intentions of this bill but I cannot vote to make myself more equal - even if just a little more equal - than my neighbors.”

S. 254 Shall the bill pass in concurrence with proposal of amendment?

Rep. Colburn of Burlington explained her vote as follows:

“Madam Speaker:

I strongly believe that Vermont should end the practice of qualified immunity for law enforcement, so that Vermonters who have experienced constitutional violations and serious harms as a result of police misconduct have a meaningful opportunity for redress. That said, this is simply a study. To say we should not even ask legal questions about this practice is a disservice to the important conversations taking place in our communities about policing and racial equity.”

Rep. Colston of Winooski explained his vote as follows:

“Madam Speaker:

At its root qualified immunity is about inequity. When we pledge allegiance to the flag every Tuesday in this chamber, our pledge ends with ‘liberty and justice for all.’ This must be true for victims of police misconduct.”

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

I believe that a great deal of the controversy regarding qualified immunity – both for and against – relates to perception rather than actual law. Fully reviewing the law before considering change is the best move to protect all parties.”

Rep. Rachelson of Burlington explained her vote as follows:

“Madam Speaker:

I am deeply disappointed that this bill morphed into a study. Qualified immunity is not about a lack of trust of law enforcement or municipal and State employees. Qualified immunity prevents Vermonters from seeking justice when they have been wrongly harmed, even if the employee broke the law. Qualified immunity doesn’t exist in the private sector. A November 2021 Vermont

Public Policy poll found 70% of those interviewed strongly agreed that when law enforcement violates someone's rights, we need to make sure that families, victims, and survivors can get the justice they deserve."

Rep. Smith of Derby explained his vote as follows:

"Madam Speaker:

I voted no on this. I find it difficult to understand why we would listen to testimony from an ice cream king and what relevance or knowledge that he could have on this issue. We need to show support of our law enforcement or we won't have any!"

S. 286 Shall the House propose to the Senate to amend the bill as recommended by the Committee on Government Operations, as substituted and amended?

Rep. Beck of St. Johnsbury explained his vote as follows:

"Madam Speaker:

I voted for S.286 because this is a large step in the correct direction. However, the expected investment rate of return of 7.0% and dated experience study are too optimistic, ensuring we will have to revisit contribution rates in the near future."

Rep. Copeland Hanzas of Bradford explained her vote as follows:

"Madam Speaker:

Over the last 15 months, we have worked alongside members of the public employee unions to bring these reforms to legislative passage today. This has been a challenging process, and one had every opportunity to stumble and fall. When you assigned me to the Pension Task Force, it was clear we needed to make structural change, but that it needed to be a balanced solution that asked everyone to give a little more to stabilize our pension system. I wanted to be sure we didn't make the same missteps as the 2009 reform commission, which presented its recommendations a la carte, and therefore several recommendations failed to pass the legislative process. In July members of the Task Force committed to work toward consensus reforms we would advocate for as a package. The bill we pass today is the embodiment of those agreements. I am proud today to vote in favor of these reforms that will protect public employee retirement and health care funding for years to come."

Rep. Higley of Lowell explained his vote as follows:

"Madam Speaker:

This is definitely a commitment we need to support; however, we need to understand this as a

priority and find suspect new programs that would require new sources of revenue for funding. Vermonters don't need any new taxes!"

Rep. Long of Newfane explained her vote as follows:

"Madam Speaker:

I am proud to vote yes to reaffirm Vermont's commitment to a secure retirement for educators and State employees. This bill makes significant progress, reducing \$2 billion dollars of retirement liabilities and putting our public pension systems on the road to sustainability. After difficult work and hard conversations, legislators and public employees have come together to secure a stable, dignified retirement for those who have spent their careers serving our State."

Rep. McCoy of Poultney explained her vote as follows:

"Madam Speaker:

I acknowledge the hard work of all committees involved to get this bill to the finish line. I am, however, disappointed we have not offered a choice for a Defined Contribution Plan and a risk sharing provision. My fear is we will be back here in four to five years reworking these plans once again."

S. 148 Shall the House propose to the Senate to amend the bill as recommended by the Committee on Natural Resources, Fish, and Wildlife, as amended?

Rep. Christie of Hartford explained his vote as follows:

"Madam Speaker:

I voted yes for S.148 today because it clearly outlined our collective resolve to provide our Constitutional obligations to all Vermonters."

Rep. Dolan of Waitsfield explained her vote as follows:

"Madam Speaker:

I support S.148, Vermont's environmental justice bill. The bill supports investments for our underserved communities, strengthens community engagement, improves collaboration among State agencies, and creates a Vermont-specific mapping tool to visualize environmental impacts and aid in decision making. The bill will go a long way to improving the health and welfare of many Vermonters."

S. 234 Shall the bill be read a third time?

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

It is unfortunate when a separate bill that is a detriment to our processes is tacked on to one that could move us forward, because it forces my ‘no’ vote. I can at least hope that a positive iteration returns to this body for further action.”

Rep. Goslant of Northfield explained his vote as follows:

“Madam Speaker:

I voted no. This could have been a bill that we all could have been closer in agreement. Act 250 is outdated and needs reform. It is my hope in the future we work closer together to establish a fair, timely, and equitable process that benefits all of Vermont. After all we all want a better climate to protect the beauty of all of Vermont.”

Rep. Sims of Craftsbury explained her vote as follows:

“Madam Speaker:

Vermont’s landmark Act 250 law has been instrumental in sustaining the Vermont we love, balancing the preservation of our unique landscape with the economic and development needs of our communities. As we face a growing housing crisis, new pressures on our working landscape, and the adverse impacts of climate change, this bill takes important steps to modernize Act 250 to better serve the needs of today’s businesses and communities.”

H. 746 Shall the bill be read a third time?

Rep. Kornheiser of Brattleboro explained her vote as follows:

“Madam Speaker:

I vote yes today as an affirmation of people’s rights over their own bodies and towards the increased safety and security and self-determination that right provides.”

Rep. Mulvaney-Stanak of Burlington explained her vote as follows:

“Madam Speaker:

I voted yes because language matters. And addressing and eradicating sexism, wherever it exists, matters.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

This charter change was supported by over 69% of Burlington voters. This change removes arcane and dehumanizing language. The stigma this language creates does far more harm to sex workers and victims of trafficking than it does to protect them. I vote yes to affirm the humanity of sex workers and victims of trafficking and to eliminate oppressive language.”

S. 139 Shall the bill be read a third time?

Rep. Arrison of Weathersfield explained his vote as follows:

“Madam Speaker:

Leave the decision at the local level. Engage the students, the school board, and the public. Use the opportunity as a learning tool. Legislation will only widen and split the community further.”

Rep. Garofano of Essex explained her vote as follows:

“Madam Speaker:

I voted yes because as a mother of a Black child in our public schools I have first-hand knowledge of racism in our schools. This bill takes an important step in ensuring my daughter, who has experienced racism in every school she has attended, will feel safer and protected in our public schools.”

Rep. Scheuermann of Stowe explained her vote as follows:

“Madam Speaker:

Once again, this body has ripped local control of - and local decision- making for - education from our local communities. From the Montpelier- centric funding of our education to its delivery; from decisions on what curriculum to offer to what kind of cleaning products to buy; from forcing proficiency-based learning and grading onto our schools to forcing the actual elimination of school districts; this body has decided over and over again that we know better than the local officials in our communities. And, we have done it again today. We know better than our local school boards, our local teachers, our local administrators, the parents and students of our communities. And, damn it, if they disagree with us, then we will just force it on them.”

Rep. Yacovone of Morristown explained his vote as follows:

“Madam Speaker:

This is a serious issue. Yet, I found myself sitting in amusement during the discussion. Some of

those same champions of local control who plead with us to let the locals rule are the same people who recoil at charter changes despite overwhelming local support. Madam Speaker, our inconsistencies define us.”

S. 286 Shall the bill pass, notwithstanding the Governor's refusal to approve the bill?

Rep. McCoy of Poultney explained her vote as follows:

“Madam Speaker:

I continue to believe we need to address the systemic problems with our pension plans; most notable, not offering a defined contribution option as well as the need for risk sharing. The General Assembly will be back in four to five years addressing the pension problems we think we fixed. Unfortunately, the amounts of monies used to shore up these pensions today will not be available tomorrow.”

S. 226 Shall the bill pass in concurrence with proposal of amendment?

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

I opposed the original bill on registration of contractors that is now embedded in this bill. With the increase to a \$10,000 threshold, I believe it is now a reasonable approach to consumer protection, and I vote yes on the bill as a whole.”

Rep. McCarthy of St. Albans City explained his vote as follows:

“Madam Speaker:

I vote yes to make important investments to help many more Vermonters, across income levels, find a home they can thrive in. We also make great strides today toward more equitable access to housing, and consumer protection. S.226 is an excellent investment in Vermont’s housing future.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

Housing is a basic human right and in this time of housing crisis we must make investments in the Vermonters who are struggling most. I vote yes to invest and regulate so that all Vermonters can be protected and allowed to thrive.”

H. 715 Shall the bill pass, notwithstanding the Governor's refusal to approve the bill?

Rep. Copeland Hanzas of Bradford explained her vote as follows:

“Madam Speaker:

The time to act on climate is now. May our children’s children forgive us for our failure to act with the urgency they expected of us.”

Rep. Harrison of Chittenden explained his vote as follows:

“Madam Speaker:

While important improvements were made as this bill came back from the Senate, which I appreciate. However, important legislation such as this needs to be done in collaboration with the Executive Branch, not just the Legislature.”

Rep. McCullough of Williston explained his vote as follows:

“Madam Speaker:

I vote yes.
Two perilous paths
Produced in the woods;
I took them...
Everything being better than nothing.”

Rep. Mulvaney-Stanak of Burlington explained her vote as follows:

“Madam Speaker:

Voting to override the veto on H.715 is one of my most difficult decisions so far as a legislator. This bill does not go far enough. Yet, I feel an urgency to act on this policy today, as we are out of time with our climate crisis. I voted to override the veto because the most regressive thing we could do for our planet and for working Vermonters is to continue our reliance on fossil fuels without creating viable alternatives.”

Rep. Patt of Worcester explained his vote as follows:

“Madam Speaker:

I voted yes. It is so very frustrating that the Governor vetoed the Clean Heat Standard without understanding what the bill does, and what it does not do. He was wrong to do so.”

Rep. Sims of Craftsbury explained her vote as follows:

“Madam Speaker:

The only long-term solution to high heating costs is to reduce our dependency on fossil fuels. The CHS will help Vermonters transition to a cleaner, more predictable, more affordable energy future. I vote yes today to advance the public engagement process and bring the standard back to the Legislature for final approval.”

Rep. Small of Winooski explained her vote as follows:

“Madam Speaker:

The topic of biofuels within the Clean Heat Standard is one of the most important, yet concerning, issues before us. I still worry about the sustainability of our State’s small and organic farms in a market that preferences the reduction of biodiversity. I voted yes today as a commitment to address these concerns next year.”

Rep. Smith of Derby explained his vote as follows:

“Madam Speaker:

There is not enough lipstick in the State of Vermont that will make this pig look any better! I hope I do not have to apologize to my constituents for H.715.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

This bill is certainly flawed. I wish it was not reliant on biofuels, I wish it had a stronger definition of sustainability, and I wish it did even more for low- and middle-income Vermonters. I vote yes today in spite of the many flaws to move us one step forward in addressing the climate crisis so that we may build stronger and better policy rather than starting over next year.”

Rep. Yantachka of Charlotte explained his vote as follows:

“Madam Speaker:

The climate crisis is real, it's here, and it is costing Vermonters money. The Clean Heat Standard would help Vermonters save money by reducing their dependence on fossil fuels for heating, a major source of our greenhouse gas emissions. The only negative effect will be on the oil companies that are siphoning off out-of-state 80 cents of every dollar Vermonters spend to heat their homes with oil, gas, or propane. I vote yes to override the Governor's veto because it will save Vermonters money in the long run.”

J.R.S. 53 Shall the House adopt the resolution in concurrence?

Rep. Burrows of West Windsor explained her vote as follows:

“Madam Speaker:

I strongly support this resolution. I support the parents who are trying to do the right thing to support their transgender children. And, ultimately, I want transgender youth to know they are seen, that they are loved, and that we as a body, and I as an individual, commit to support them. As Vermonters, they are us.”

Rep. Small of Winooski explained her vote as follows:

“Madam Speaker:

I voted yes today to underscore my unwavering commitment to support trans-, non-binary, and gender queer youth, as well as highlighting the importance and life-saving impacts of supportive families for LGBTQ youth nationwide. Healthcare decisions should always be made by the patient, informed by healthcare practitioners and their guardians.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

The Vermont youth risk behavior study clearly shows that transgender youth are at significantly higher risk of suicide, substance use, anxiety, and depression. We know that youth who are able to access gender affirming care and spaces are at lower risk. I work with transgender youth in my social work practice and I have seen the heartbroken and despair-filled faces of young people trying only to live as their authentic selves. I know that strengthening supports for transgender youth will save lives. I vote yes today for every transgender Vermont youth and for each of the youth I have supported. I vote yes to show my support and commitment to all Vermont’s LGBTQIA+ youth.”

S. 250 Shall the House propose to the Senate to amend the bill as recommended by the Committee on Government Operations, as amended?

Rep. Kornheiser of Brattleboro explained her vote as follows:

“Madam Speaker:

I voted yes because I want a government that is accountable to all of its citizens and we can’t improve or account without comprehensive data.”

Rep. Mrowicki of Putney explained his vote as follows:

“Madam Speaker:

My yes vote helps Vermont take a small step towards more comprehensive racial justice actions. We have work to do and as our colleague from Winooski is leaving us after this session, I thank him for all his work and his leadership on issues of racial justice.”

Rep. Sibilía of Dover explained her vote as follows:

“Madam Speaker:

Data can help us better understand what is and what is not happening with law enforcement encounters and in our communities. That’s good for law enforcement and good for citizens.”

Rep. Troiano of Stannard explained his vote as follows:

“Madam Speaker:

I voted yes. Information gathered on a form at the time of an encounter with a citizen could very well save hours of court appearance time by that officer. This is not an anti-police bill.”

J.R.H. 22 Shall the resolution be read a third time?

Rep. Goslant of Northfield explained his vote as follows:

“Madam Speaker:

A man I most admired when I was very young was President John F. Kennedy. Thank God that man had the guts and love for his country to make probably one of the hardest decisions in his life. It may have cost him his life. There is no way I can support this resolution. I love my country, state, and all military and personnel that sacrifice themselves and family each and every day. There too many unknowns in the world. The United States of America has always been known as a nation of power and peace to other nations of this world. These are my personal thoughts. Thank you, all veterans and families that have lost loved ones, so I can say what I feel needed to be said today.”

Rep. Page of Newport City explained his vote as follows:

“Madam Speaker:

This body may not know that I am a retired active-duty member of the Air Force. I was a missile launch officer for two missile systems and I supported a third system. I was also part of an inspector monitor team traveling to the former Soviet Union to ensure that the START treaty was followed. I do not support this resolution, but I respect the members’ rights to present this resolution. This

body should know that there exists an agency that works to prevent the proliferation or use of weapons of mass destruction by working with partner nations to secure, eliminate, detect, and interdict WMD (weapons of mass destruction) related systems and materials.”

Rep. Whitman of Bennington explained his vote as follows:

“Madam Speaker:

I stand with our armed services’ members and military families and believe I as a representative owe an immense debt for their devotion and sacrifice. For me, that includes working towards a world where mass destruction on the scale of nuclear weapons is no longer a threat to humanity. For this reason, I vote yes.”

H. 510 Shall the report of the Committee of Conference be adopted?

Rep. Goslant of Northfield explained his vote as follows:

“Madam Speaker:

I voted in favor of this bill, because of the adjustment to help out families with children who I always try to assist. However, I will now express my disappointment once again for taxing military retirement pensions. Another lost opportunity to grow our workforce. These residents will pay taxes in our beautiful state. We could have, and should have, done more for our veterans.”

Rep. Kornheiser of Brattleboro explained her vote as follows:

“Madam Speaker:

This is a significant win for Vermont families— We are creating a clear message in our tax code that Vermont is a place that supports families, supports workers, and — that we understand what it means to parent, to carry student loan debt, to care for aging parents, and that we’re here for you.”

Rep. Morgan, M. of Milton explained his vote as follows:

“Madam Speaker:

I voted yes but feel we could have done more for pension relief for the military. As the member from Rutland said, it helps junior rank retirees primarily, but we could have done more for them. It is a start.”

H. 740 Shall the report of the Committee of Conference be adopted?

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

Today I vote yes to invest in a better future for Vermonters that leaves no one behind. I thank the Appropriations Committee for their diligent, thoughtful consideration of policy proposals and competing priorities to arrive at historic investments in workforce, housing, climate action and so much more. This balanced, thoughtful budget is one we can all be proud of.”
