To the extent permitted under federal law, the Board shall ensure the rules anticipate and accommodate a range of ACO models and sizes, balancing oversight with support for innovation. In its review, the Board shall review and consider:

(A) information regarding utilization of the health care services delivered by health care providers participating in the ACO and the effects of care models on appropriate utilization, including the provision of innovative services;

(B) the goals and recommendations of the health resource allocation plan created in chapter 221 of this title;

(C) the expenditure analysis for the previous year and the proposed expenditure analysis for the year under review by payer;

(D) the character, competence, fiscal responsibility, and soundness of the ACO and its principals;

(E) any reports from professional review organizations;

(F) the ACO's efforts to prevent duplication of high-quality services being provided efficiently and effectively by existing community-based providers in the same geographic area, as well as its integration of efforts with the Blueprint for Health and its regional care collaboratives;

(G) the extent to which the ACO provides incentives for systemic health care investments to strengthen primary care, including strategies for recruiting additional primary care providers, providing resources to expand capacity in existing primary care practices, and reducing the administrative burden of reporting requirements for providers while balancing the need to have sufficient measures to evaluate adequately the quality of and access to care;

(H) the extent to which the ACO provides incentives for systemic integration of community-based providers in its care model or investments to expand capacity in existing community-based providers, in order to promote seamless coordination of care across the care continuum;

(I) the extent to which the ACO provides incentives for systemic health care investments in social determinants of health, such as developing support capacities that prevent hospital admissions and readmissions, reduce

length of hospital stays, improve population health outcomes, reward healthy lifestyle choices, and improve the solvency of and address the financial risk to community-based providers that are participating providers of an accountable care organization;

(J) the extent to which the ACO provides incentives for preventing and addressing the impacts of adverse childhood experiences (ACEs) and other traumas, such as developing quality outcome measures for use by primary care providers working with children and families, developing partnerships between nurses and families, providing opportunities for home visits, and including parent-child centers and designated agencies as participating providers in the ACO;

(K) public comment on all aspects of the ACO's costs and use and on the ACO's proposed budget;

(L) information gathered from meetings with the ACO to review and discuss its proposed budget for the forthcoming fiscal year;

(M) information on the ACO's administrative costs, as defined by the Board;

(N) the effect, if any, of Medicaid reimbursement rates on the rates for other payers; and

(O) the extent to which the ACO makes its costs transparent and easy to understand so that patients are aware of the costs of the health care services they receive.

(2) The Green Mountain Care Board shall adopt rules pursuant to 3 V.S.A. chapter 25 to establish standards and processes for reviewing, modifying, and approving the budgets of ACOs with fewer than 10,000 attributed lives in Vermont. In its review, the Board may consider as many of the factors described in subdivision (1) of this subsection as the Board deems appropriate to a specific ACO's size and scope.

(i) ask questions of employees of the Green Mountain Care Board related to the Board's ACO budget review;

(iv) ask questions and provide testimony in any hearing held in conjunction with the Board's ACO budget review.

(B) The Office of the Health Care Advocate shall not disclose further any confidential or proprietary information provided to the Office pursuant to this subdivision (3).

(c) The Board's rules shall include requirements for submission of information and data by ACOs and their participating providers as needed to evaluate an ACO's success. They may also establish standards as appropriate to promote an ACO's ability to participate in applicable federal programs for ACOs.

(d) All information required to be filed by an ACO pursuant to this section or to rules adopted pursuant to this section shall be made available to the public upon request, provided that individual patients or health care providers shall not be directly or indirectly identifiable.

(e) To the extent required to avoid federal antitrust violations, the Board shall supervise the participation of health care professionals, health care facilities, and other persons operating or participating in an accountable care organization. The Board shall ensure that its certification and oversight processes constitute sufficient State supervision over these entities to comply with federal antitrust provisions and shall refer to the Attorney General for appropriate action the activities of any individual or entity that the Board determines, after notice and an opportunity to be heard, may be in violation of State or federal antitrust laws without a countervailing benefit of improving patient care, improving access to health care, increasing efficiency, or reducing costs by modifying payment methods.

Sec. 17. FINDINGS

(a) Approximately 13,000 Vermont residents are employed by the State or employed by a person contracting with the State. Reducing the impact of diet-related diseases will support a more productive and healthy workforce that will pay dividends to Vermont's economy and cultivate national competitiveness for State residents and employees.

(b) Improving the nutritional quality of food sold or provided by the State on public property will support people in making healthy eating choices.

(c) State properties are visited by Vermont residents and out-of-state visitors, and also provide care to dependent adults and children.

(d) Approximately 25 percent of Vermont residents are overweight or obese.

(e) Obesity costs Vermont \$291 million each year in health care costs, contributing to debilitating yet preventable diseases, such as heart disease, cancer, stroke, and diabetes.

(f) Improving the types of foods and beverages served and sold in workplaces positively affects employees' eating behaviors and can result in weight loss.

(g) Maintaining a healthy workforce can positively affect indirect costs by reducing absenteeism and increasing worker productivity.
